Civility: Medium-Fi Prototype Instructions

Link to prototype: http://invis.io/7M1N5SSQ4

The prototype we created for Civility runs on invis.io. The following instructions will guide a user through our 3 tasks and scenarios:

Part I – Registration
  • Click the Civility icon
  • Click “Next” and then “Sign Up”

Part II (Task 1) – Feedback
  • Click the blank space on the right or left to flip through the different home screens
  • Press “Civility” to go back to the home page
  • Click the big “0” in the middle to get to your live feedback screen

Part III (Task 2 and Task 3) – Get Notifications/Identify Fruitless Conversations
  • Wait 4 seconds and an “Off Topic” notification will pop up
  • Press the bottom bar to get the “Too Loud” notification to pop up
  • Click on the top bar to go back home
  • The number in the middle should have changed to “6”

Part IV – Settings
  • Click the settings icon
  • To go back home, click the “Civility” bar

Part V – Pause
  • Press the pause button
  • Press “Pause” if you want to pause Civility
  • Click on “Civility” if you want to exit the pause page

Part VI – Unpause
  • Press the play button
  • If you want to unpause, press “Unpause”
  • If you do not want to unpause, click on “Civility”
