Post-Study Study

Demographic Information

1. Gender

2. How much expertise do you have with ACLS protocol?

“I Use or review them”:

Daily  Weekly  Monthly  Yearly  5 years  10 years

3. Rate yourself on ACLS proficiency

Novice  Intermediate  Advanced  Expert

0) Previous simulator experience

1) Paper checklists

   a. Pre-surgery checklist
      i. do you use it in your regular practice?

      ii. How often? (# TIMES per month)

      iii. How useful do you find it?

         (not at all)  1  2  3  4  5 (very)

      iv. How easy to use do you find it?

         (not at all)  1  2  3  4  5 (very)
Participant #__________

b. Routine checklists
   i. Do you use them?
      
   ii. How often? (# TIMES per month)
      
   iii. How useful do you find it? (LIKERT)
       
       (not at all) 1 2 3 4 5 (very)
       
       iv. How easy to use do you find it (LIKERT)
       
       (not at all) 1 2 3 4 5 (very)

c. Crisis checklists
   i. Do you use them?
      
   ii. How often? (# TIMES per month)
      
   iii. How useful do you find it? (LIKERT)
       
       (not at all) 1 2 3 4 5 (very)

   iv. How easy to use do you find it (LIKERT)
       
       (not at all) 1 2 3 4 5 (very)

d. What role do you think checklists have in medicine?
Performance in scenarios

1) For scenario 1
   a. How many times do you feel like you selected the incorrect color or missed one entirely? (colors were presented 50 times)

   b. How many questions do you feel like you missed?
      (there were 30 questions)

   c. If you used a cognitive aid/checklist, how much do you feel it changed your score on the questions?
      (give a number positive or negative)

2) for scenario 2
   a. How many times do you feel like you selected the incorrect color or missed one entirely? (colors were presented 50 times)

   b. How many questions do you feel like you missed?
      (there were 30 questions)

   c. If you used a cognitive aid/checklist, how much do you feel it changed your score on the questions?
      (give a number positive or negative)

3) for scenario 3
   a. How many times do you feel like you selected the incorrect color or missed one entirely? (colors were presented 50 times)

   b. How many questions do you feel like you missed?
      (there were 30 questions)

   c. If you used a cognitive aid/checklist, how much do you feel it changed your score on the questions?
      (give a number positive or negative)
1) In your own words, please compare using no checklists to using the paper checklists?

2) In your own words, please compare using the paper checklists to the computer-based checklist system

3) If you have any ideas for system improvements, please list those here

4) Any other thoughts?
