After: Bar Graph

Revised UI Design: Navigation

Before: Visible Arrows

After: No Arrows

DEMO

<http://invis.io/7M1N5SSQ4>

1. General Walkthrough/Feedback
2. Showing Warning and Off Topic Notifications
3. Showing Settings & Pause Feature

Tools Used: Invision & Illustrator

Pros:

- Already familiar with tools
- Vector images
- Easy to edit

Cons:

- Had to draw every screen
- No ability to do multiple actions in a row

Summary

- Main changes were made in data visualization
- Minor changes in UI
- Prototyping to scale
- Challenge designing for such a small interface
