

README: Soneme prototype

This readme applies to the soneme proto.io prototype.

- Search screen
 - Press the go button to enter the preset search.
 - Searching for custom terms is not enabled in the prototype, but will exist in the final product.
- Gridscreen
 - Tap or swipe the slider in the bottom bar to open the queue. Tap or slide the bar in the other direction to go back to the now playing song.
 - Swipe down on a song icon to add it to the queue (or a representation of that song, not all artwork will match up).
 - NOTE: Only the following songs have this function implemented: “The Faker”, “I can see, Words, Josephine ”
 - Swipe up on the center song to read about artist info. Swipe down to go back to the grid screen.
 - Swipe left on “The Faker” to bring it to the center and show a new set of similar songs.
 - When the song “Words” is in the queue, drag it to the center to bring up a new grid.
 - Tap the broadcast icon in the top right corner to start broadcasting. Tap it again to turn off broadcasting.
- DJ screen
 - Tap on DJ Away to start listening to his station
 - The queue bar is replaced by upcoming songs in the DJ station
 - Scroll through the other DJ options in the list
- Side menu
 - Tap on the side menu at the top left corner to see a list of screens that you can go to.
