The image shows a mobile app design tool interface. At the top, a preview window displays a screen with a blue header and a white body containing a 'Handyman' logo. Below the preview is a control panel with various options for hotspot behavior and transitions. A row of buttons allows selecting different transition types, with 'Push Left' currently selected. Below this is a grid of image thumbnails for different app screens, including a main menu, a repair selection screen, and service details screens. The 'handyman.png' thumbnail is highlighted with a green border and labeled 'Current image'.
