# KinX

## Bring families together
## Tony, Shahab, Jiakun, Brandon

# Overview

- User feedback

- Revised design & Rationale

- Showcase Mid-fi prototypes

- Tools

# Tasks

- Start a group chat

- Add a family event and send notice

- Post a Note on a family forum

# Low-fi prototype

| Observation | Insights |
| --- | --- |
| Buttons cause confusion | Icons are unrecognizable |
| Cannot find "Notes" | Counter-intuitive Layout of home screen |
| Try to edit navigation bar | Space for customization |
| Wait for automatic return | Smooth transition |

# Icons & Labels

# Layout 1

# Layout 2

**KinX** Family

Family | All | Explore

Relatives | Friends | More

*Multiple groups*
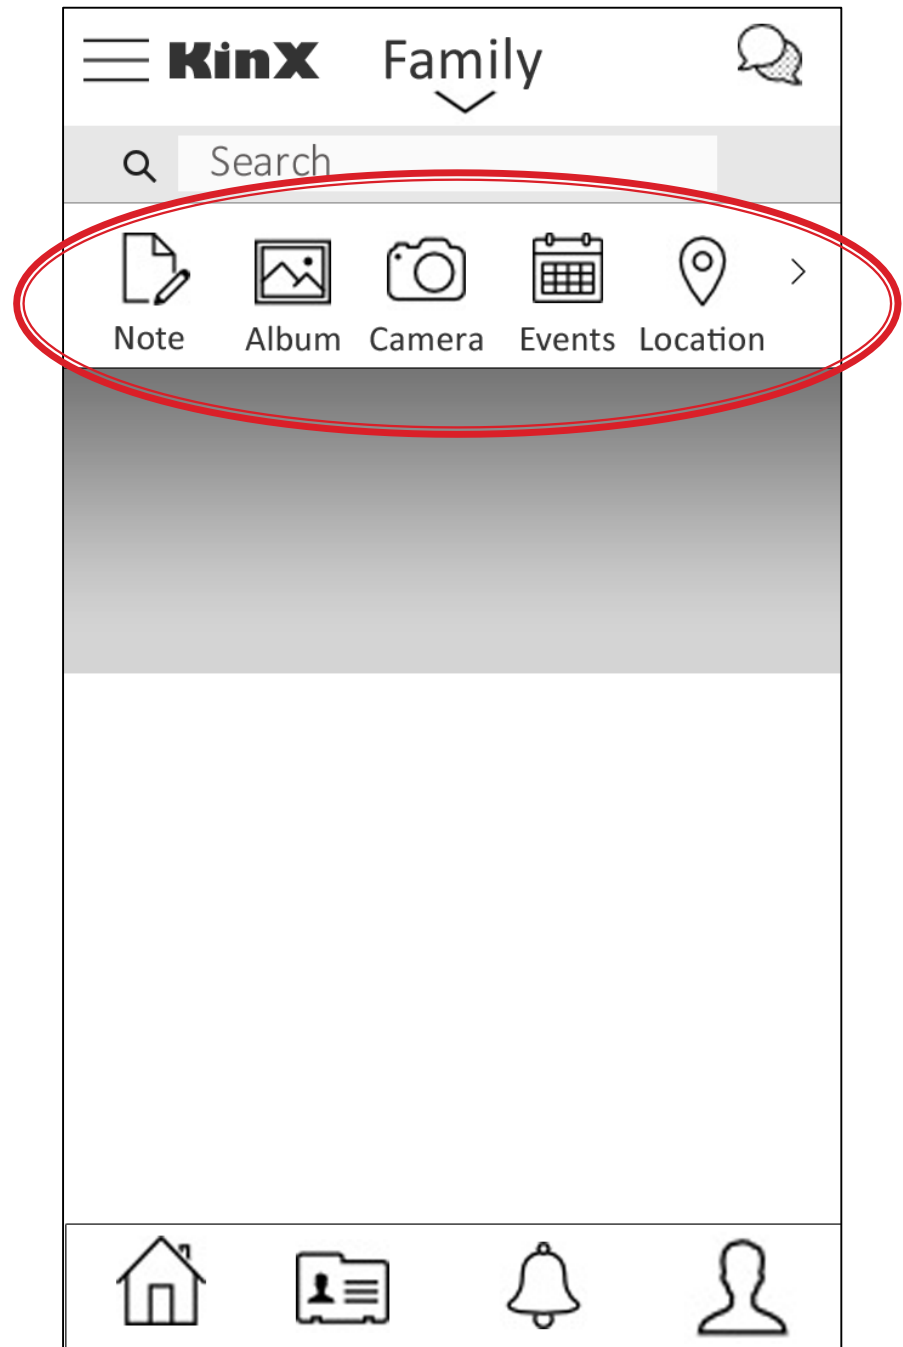

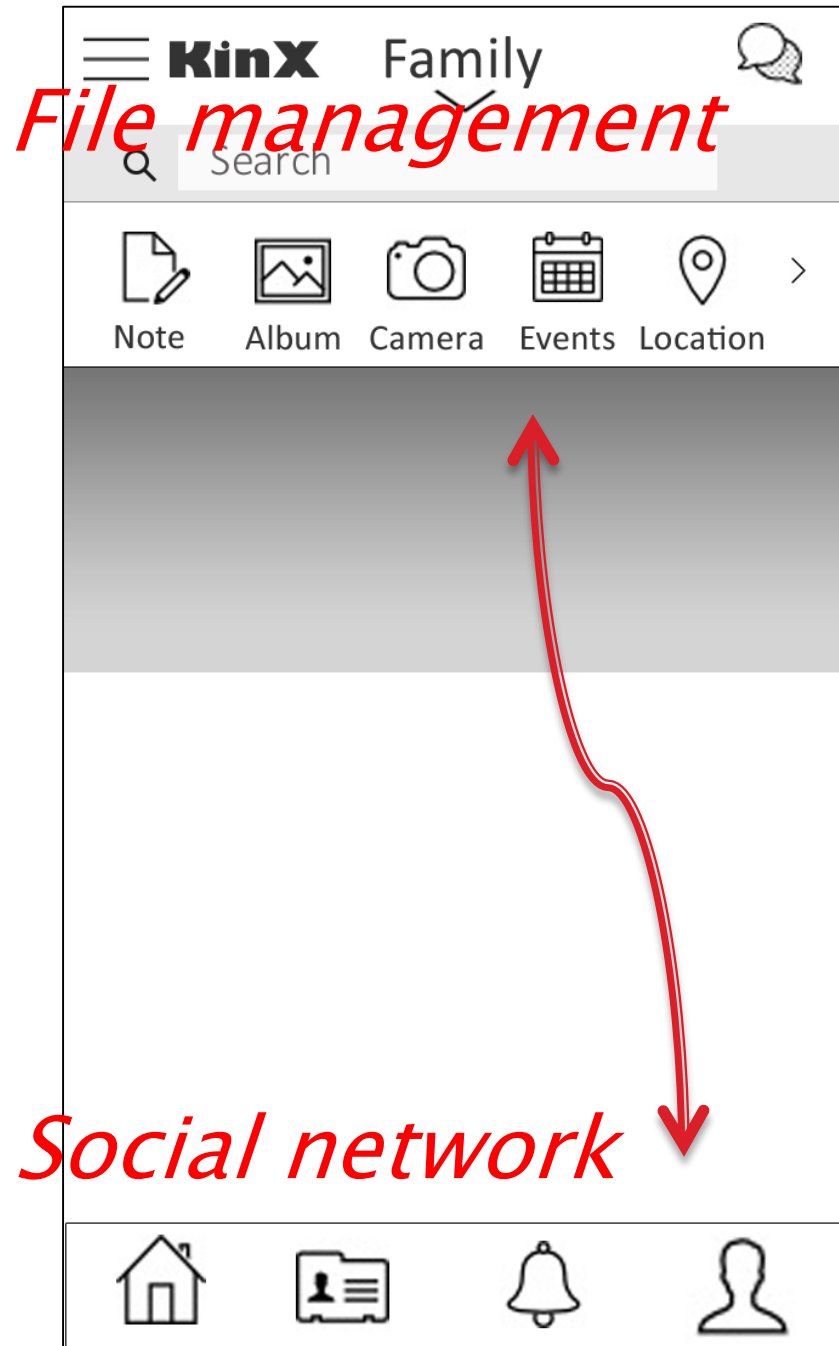

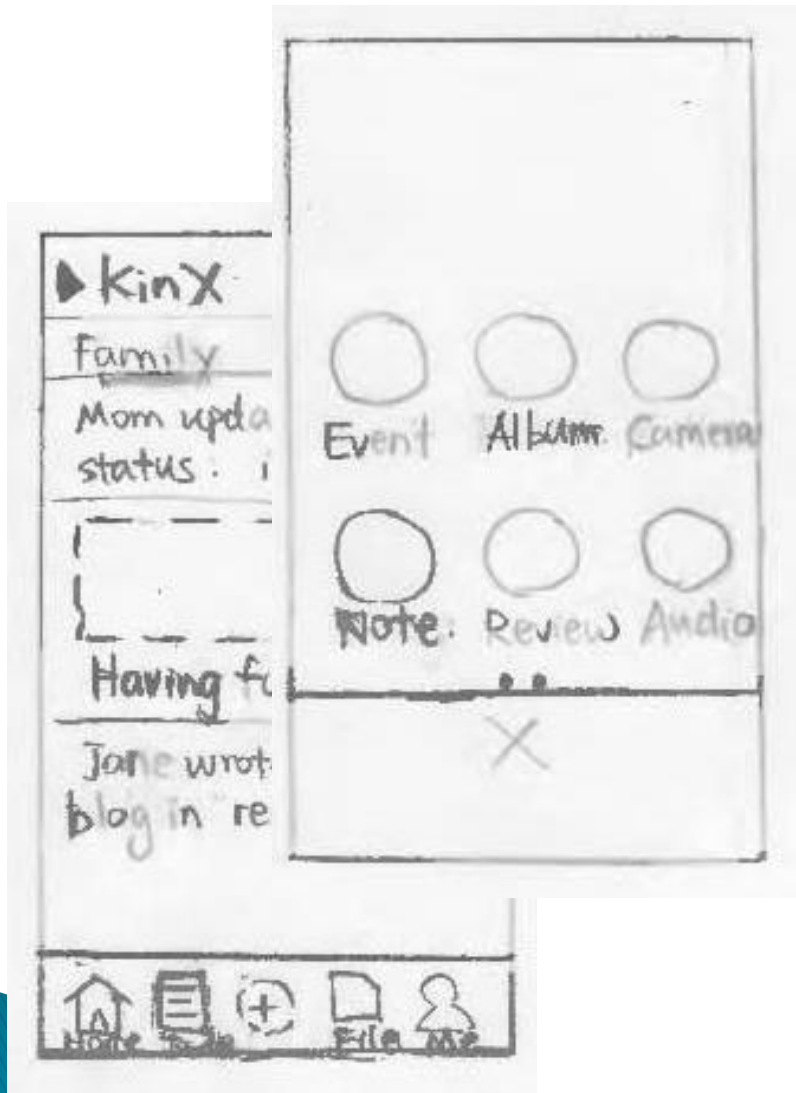

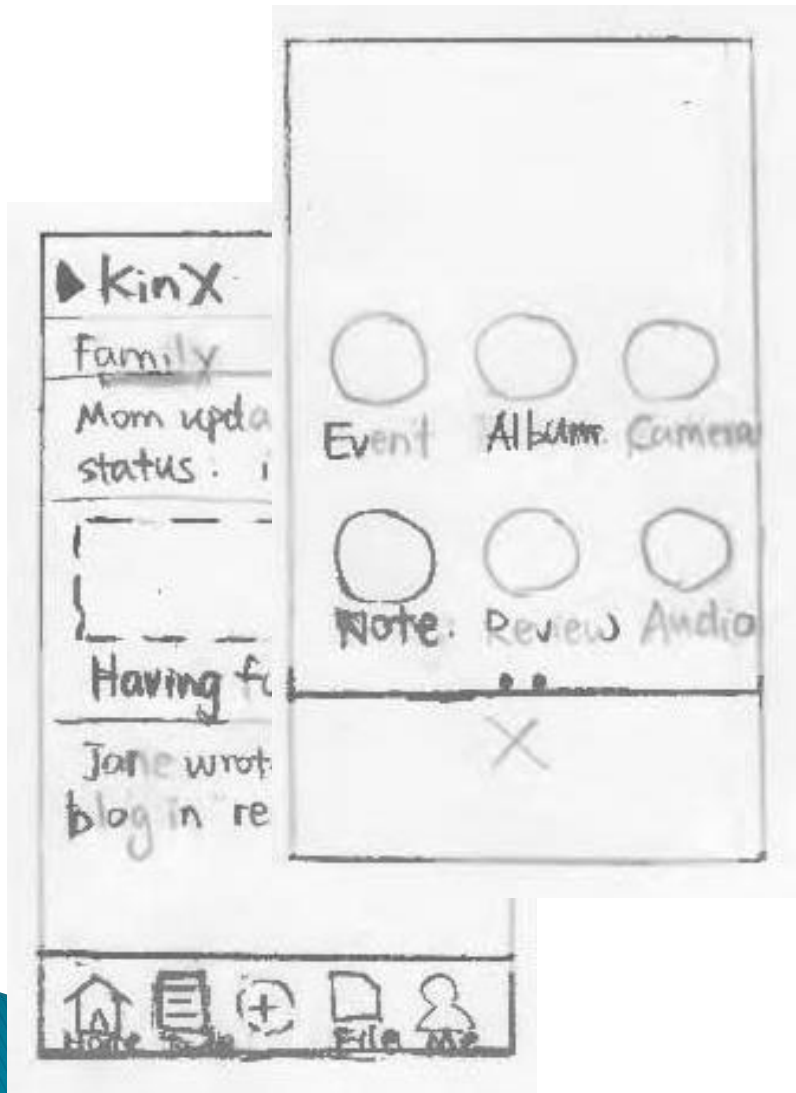

# Customization
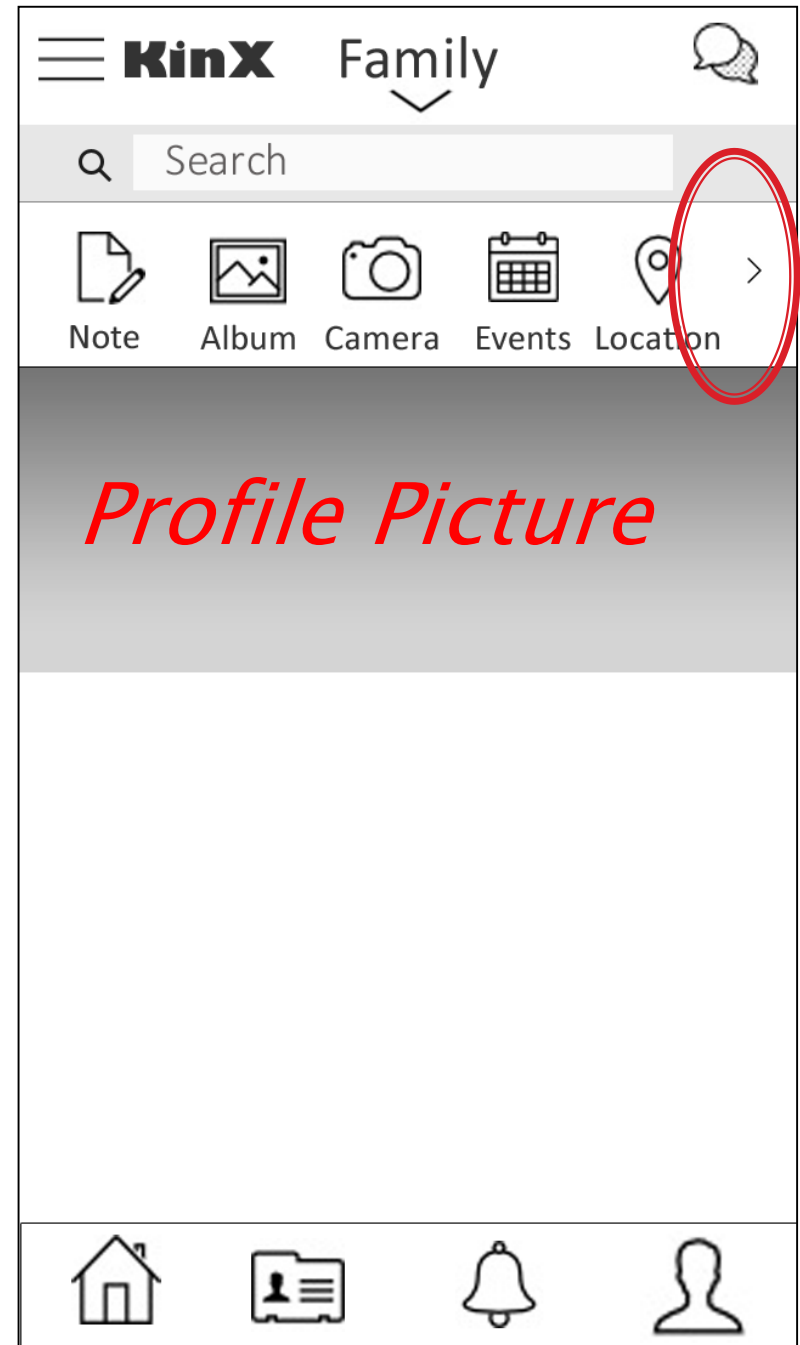

# Transition

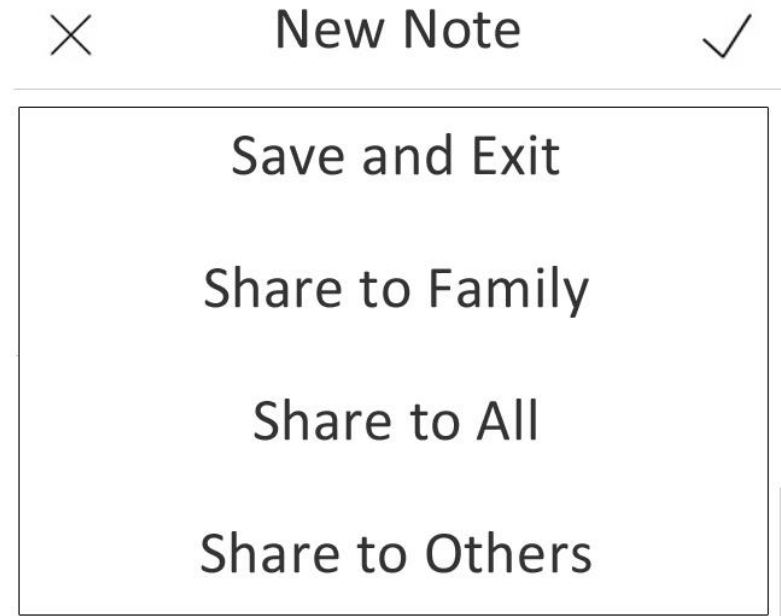

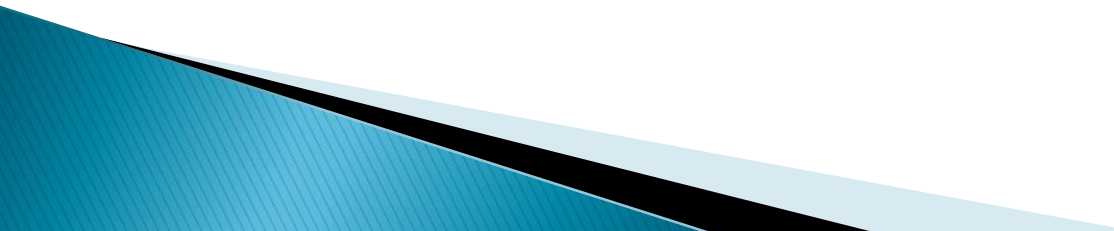

*Tapping on sharing items brings back home screen*

# Live Demo

https://projects.invisionapp.com/d/main#/console/2005556/45146431/preview
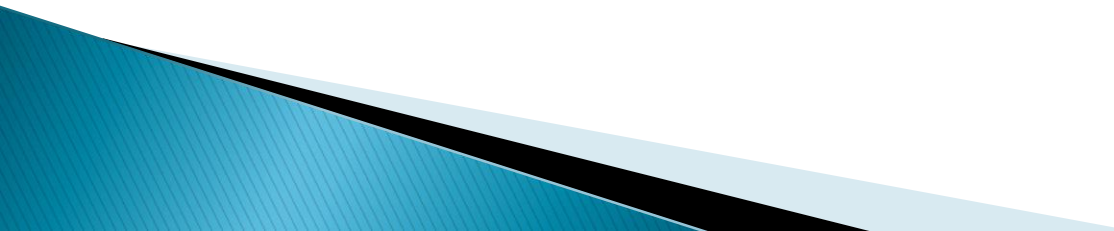

# Tools

- Image processing: Photoshop

- Transition: InVision for cooperation

- Limitation: Fixed-path, greyscale

# Summary

- Familiar icons and labels

- Layouts illustrates information architectures

- Create options for personalization

- Smooth transitions between tasks

# Thanks!
