**Problem:** In large lectures, there is often no efficient way for students to give instructors feedback on their understanding of the material being presented.

---

**Our Solution**

Speak facilitates communication between the instructor and students by giving students the ability to:

- **Ask Questions**
- **Answer Questions**
- **Submit Feedback**

---

**Ask**

- **Question:** Student can post questions Answer: Instructor.
- **Answer:** Student answers with holistic feedback.
- **Submit Feedback:** Cookies set on the network.

**Answer**

- **Give feedback:** Feedback is given.
- **Ask or view Questions:** Questions can be asked or viewed.
- **Answer a poll:** Poll can be answered.

**Feedback**

- **Give feedback:** Feedback can be given.
- **Ask or view Questions:** Questions can be asked or viewed.
- **Answer a poll:** Poll can be answered.

---

**Design Process**

- **Rough Sketches**
- **Low-Fidelity Prototype**
- **Medium-Fidelity Prototype**
- **Storyboarding**
- **User Testing**
