InVision for Prototyping
UI Redesign: Home Screen
UI Redesign: Home Screen
Everything looks cleaner!
Adding a Task

1. Go to Gym
2. Call Mom
3. Eat Salad
4. Do Laundry

To add a new task:
- Tap on the 'Add Task' button.

Example task:
- Task:
- Notes about the task go here

Chosen Task:
(30 Min.)
- Notes about task go here

Invite Someone
Inviting Friends

- Call Mom
- Eat Salad
- Do Laundry
- Go To Gym

Chosen Task (30 Min.):
Notes about task go here

Invite to Task
Joe Friend

Come do this task with me!

Invitation Sent
Joe Friend

Come do this task with me!

Do-Not-Disturb: now Sleep Mode
Prototyping with InVision

Pros:
● Quick to implement
● Supports many gestures
● Can “install” as an web app on phone
Prototyping with InVision

Cons:

● “Linking amnesia” made iteration difficult
● Couldn’t put multiple gestures in one place
● No data entry → less interactivity
Summary

- Total UI Redesign
- Invision makes iteration difficult
