

docket

Bringing ideas to life

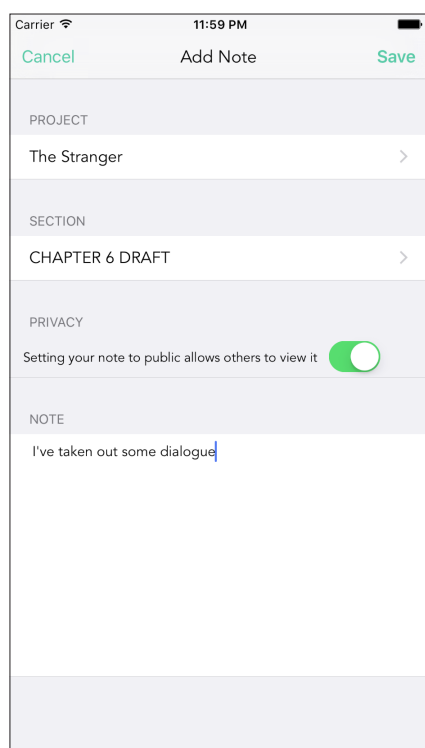

Overview

For people of all walks of life, the everyday bustle leaves little energy for personal projects.

By integrating documentation and social media, **docket** builds momentum and accountability to bring creative ideas to life.

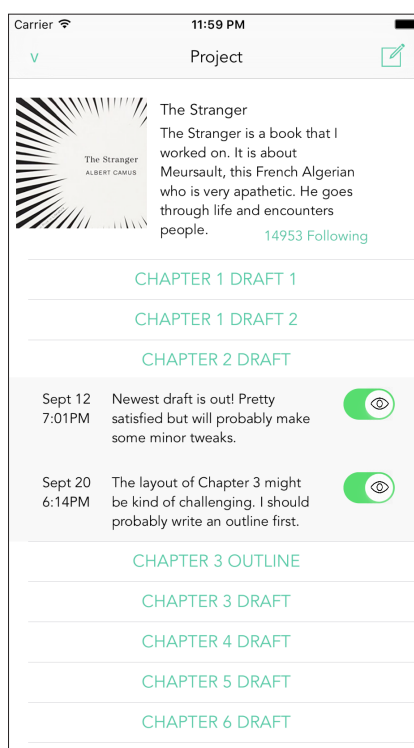

Features

document process

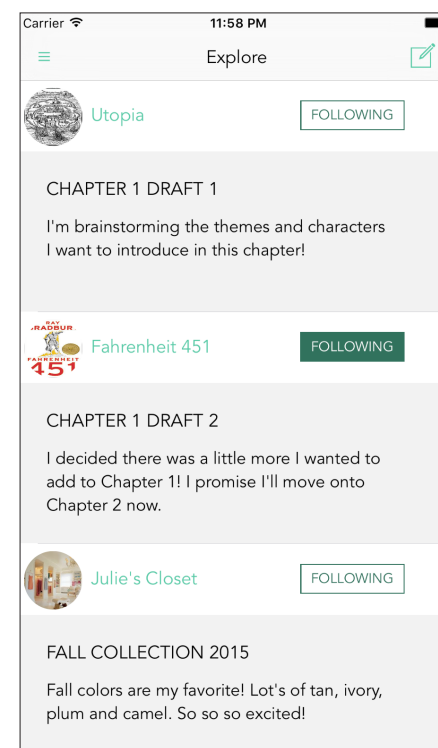

from beginning to end

review progress

for motivation and reference

discover projects

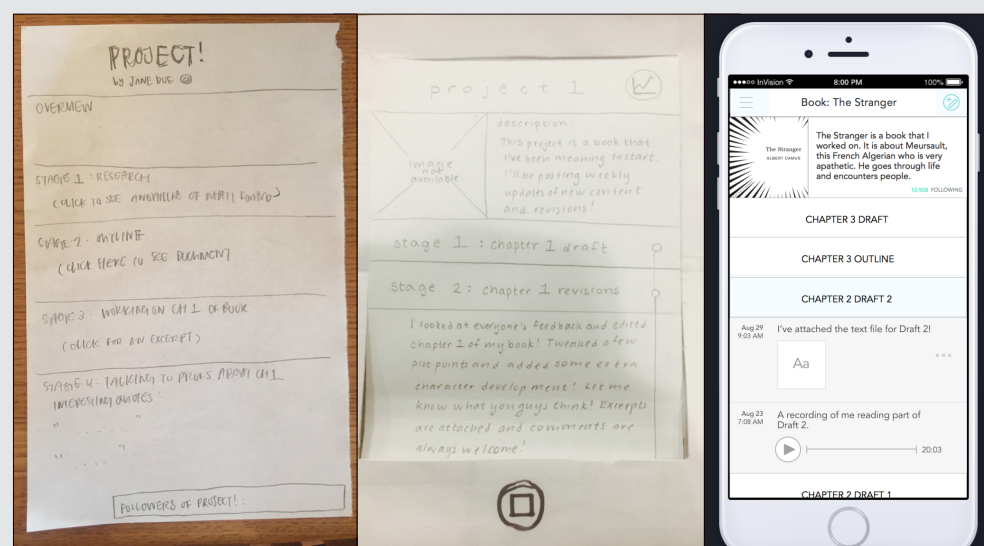

for inspiration

Design Iterations

prototypes (from left to right):
experience, lo-fi paper, med-fi InVision

- efficient documentation
- streamlined exploration
- simpler social interaction
- improved navigation
