

# Medium-Fi Prototype

Team Boba!

Joseph P., Carla R., Karen W.

**Making traveling  
with kids BEARable**

# Tasks

**Simple Task** Make a new trip from Stanford to San Francisco and “pack” content.

**Medium Task** Rate the content of the trip you just took.

**Complex Task** Create new content for future trips.

## San Francisco

San Francisco was founded 236 years ago by a Spanish explorer. Eight hundred and fifty thousand people live in San Francisco. That's a lot! San Francisco is known for its hills and is a popular tourist destination for world travelers.

A mobile app interface for tagging content. The header is blue with a back arrow and the text "What?". Below the header, the text "Choose tags for this content:" is displayed. A list of tags follows, each with a toggle switch: Nature (checked), Landmark, City, Science, Sports, Song, Foreign Language, History, and Game. At the bottom, there is a large green button labeled "SHARE!".

A mobile app interface showing a confirmation dialog. The header is blue with a back arrow and the text "What?". The main content area is white and contains a gray box with the following text: "This content will be packable in a trip that passes through this content's radius." and "I understand that this content will be made available to all Travel Teddy users." Below the gray box is a large orange button labeled "CONFIRM".

# Prototyping Overview

Tools Used:

Sketch + Invision

- Limitations
  - Transition logic
- Wizard-of-Oz-ing
  - User must choose content we specify
  - Teddy Bear status = imaginary
- Hard-coded Features
  - Content
