

How do you know if your loved ones are safe? healthy?

UseSense

Care from anywhere.

How is Dad recovering from his **stroke**? Did 9-1-1 arrive at Dad's yet? Is Mom suffering from **insomnia**? Where is Mom out at this hour? Is she **safe**?

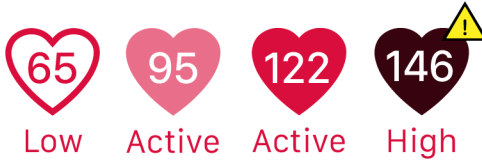

PROBLEM

Our globalizing generation wants our aging parents to stay safe while we are away.

SOLUTION

Empowering personal care between distant family members.

HEALTH & SAFETY

1. heart rate 
2. sleep logs 
3. location trace 

A UseSense watch tracks your loved one's health and location, and you can monitor both with your smartphone.

EMERGENCIES

 **Dad**

Dad activated 9-1-1 button.
Emergency services on the way.

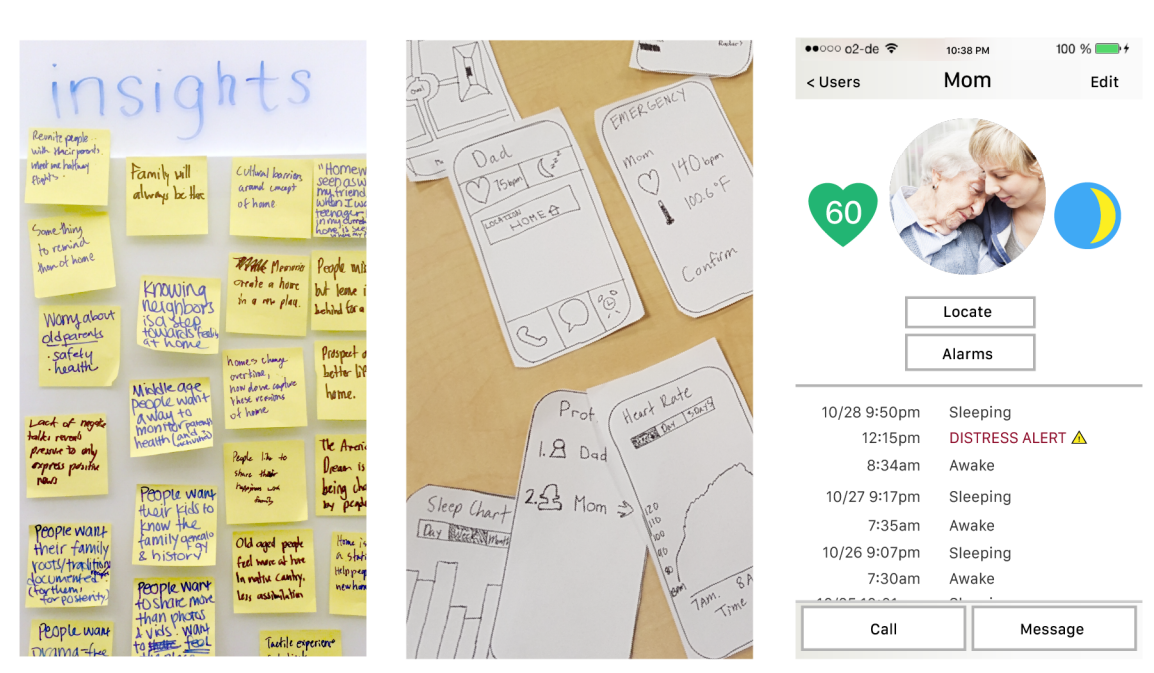

Call	Message
Close	

Dad can easily contact emergency services, and we alert you instantly.

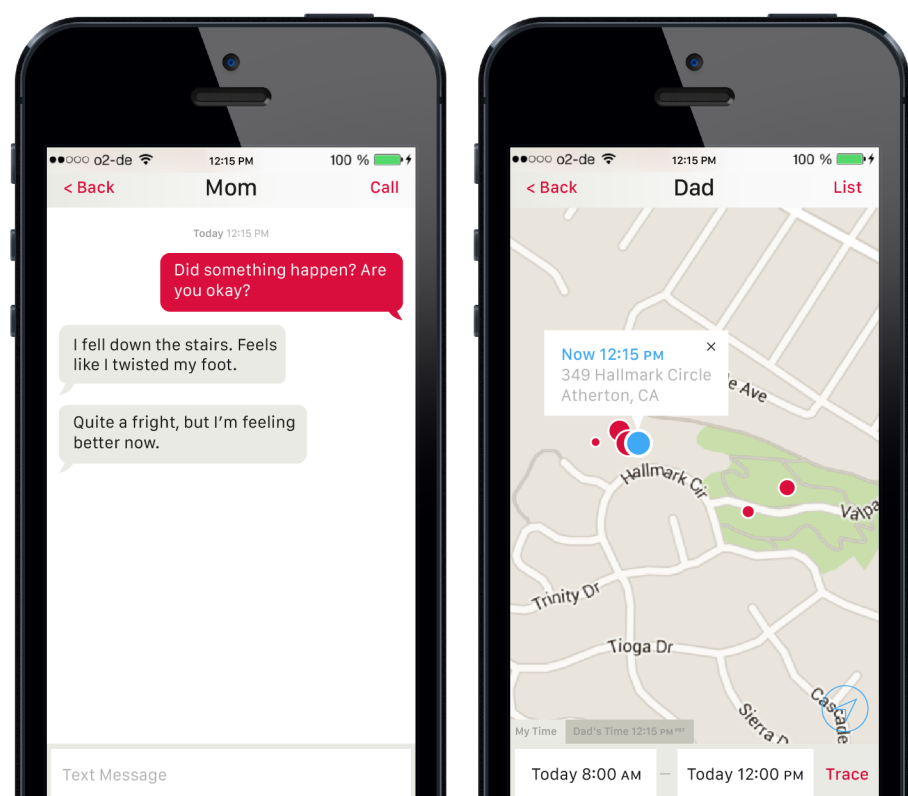

TAKE ACTION

Call, text, and set alarms for your loved ones.
