Clean Plate

● ● ●

Michael Zhu, Brandon Liu, and Bryan McLellan

Help yourself, help feed the world.

Americans waste as much as 40% of all food produced in the United States. Meanwhile, 48 million Americans live in food insecure households. "Clean Plate" takes the food from restaurants that otherwise would have been wasted and lets you deliver it to homeless shelters and food banks in exchange for a discount on your meal.

Tasks

Task 1: Notified that food is available for pick-up at your current location (Simple)

- Receive notification on your phone

- pick up food

- place food in your car

Task 2: Navigate to the homeless shelter/food bank (Complex)

- App automatically calculates where the nearest homeless shelter is

- Gives you step by step directions on how to get there

Task 3: Deliver food to shelter (Medium)

- Have food inspected at shelter

Storyboard - Task One, Get food notification

Storyboard - Task Two, Navigate to homeless shelter / food bank

Storyboard - Task Three, Deliver food
