Mission Statement

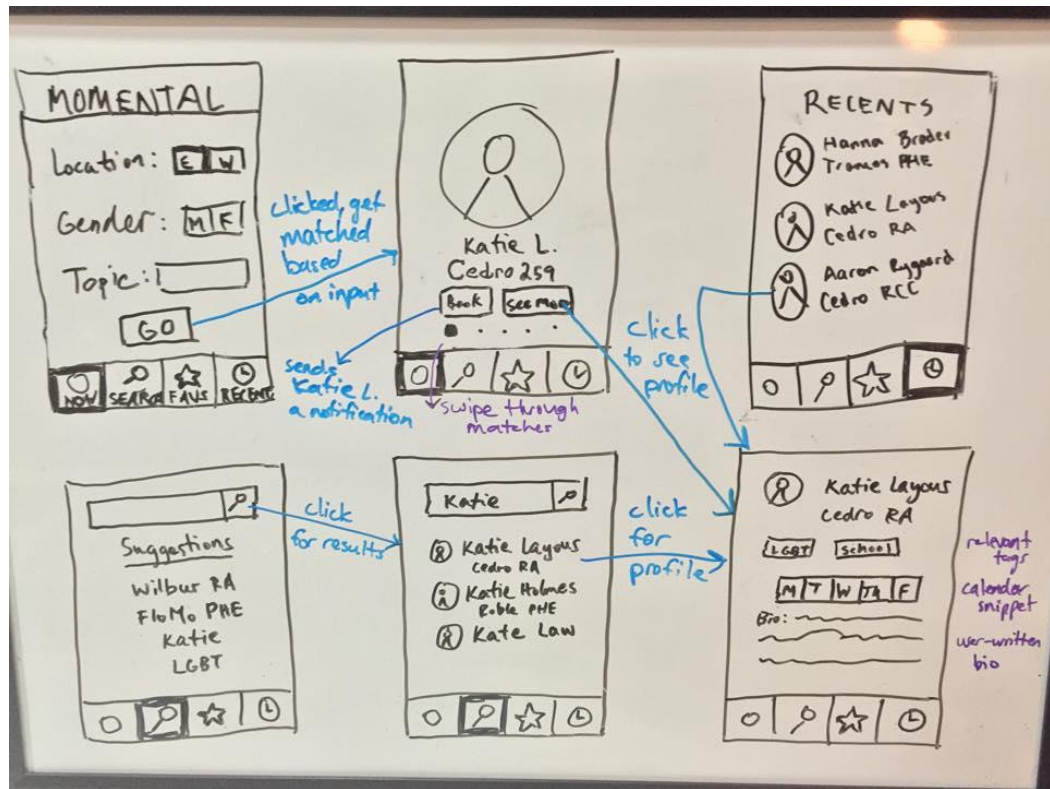

Momental: Help the moment you need it

Selected Interface and Rationale

- Native App - Standard
- Native App - Calendar-based
- Text-based
- Apple Watch
- Web-based

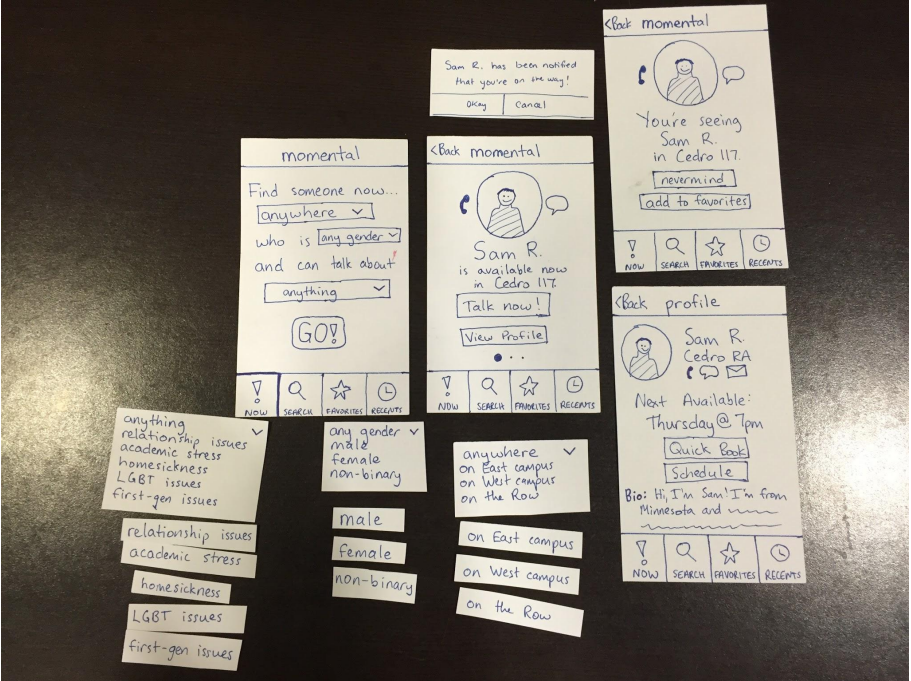

Selected Interface and Rationale

- More accessible
- More flexibility for profile, match lists, etc

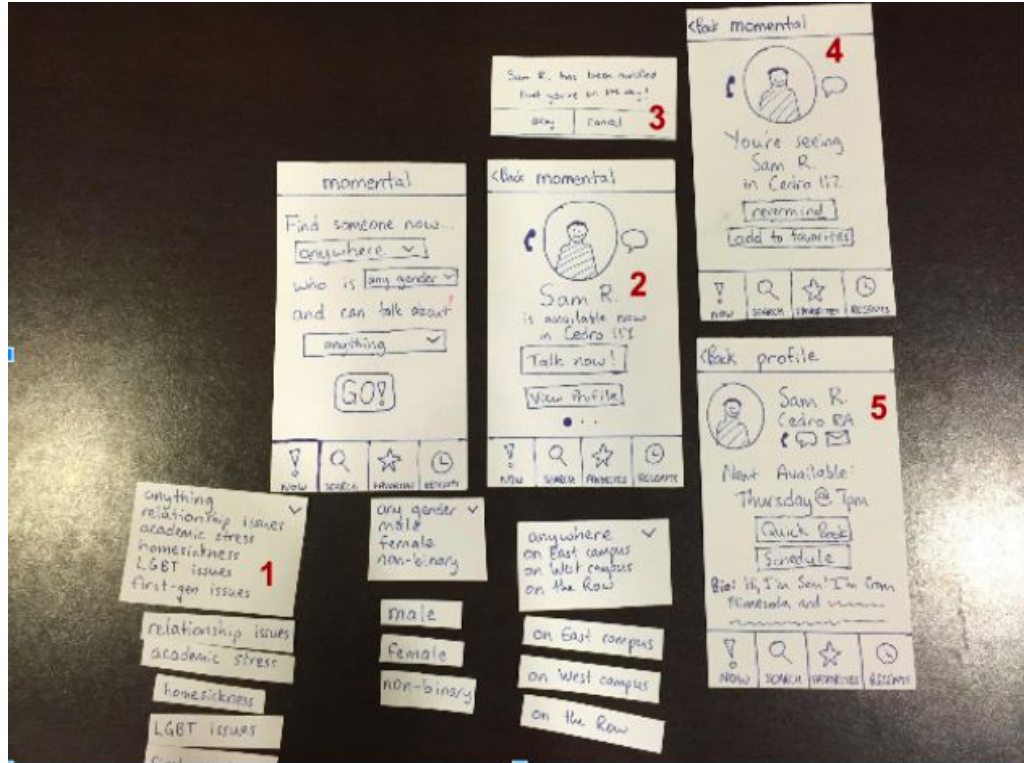

Low-fi Prototype

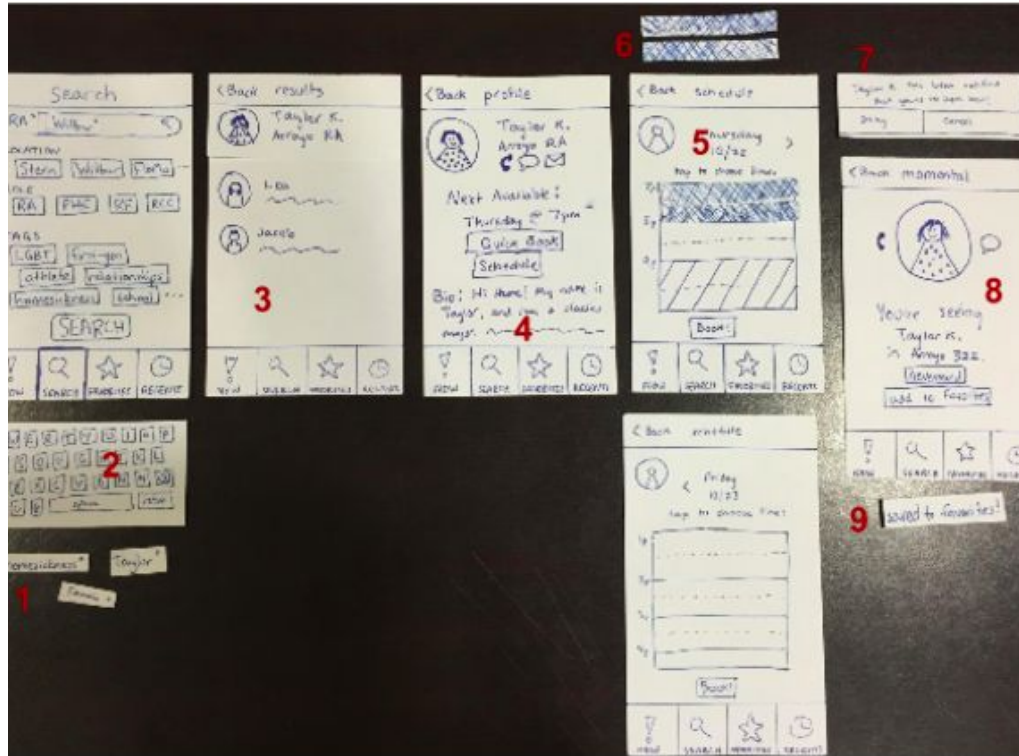

- Drop-down tables
- Search tags
- Highlightable areas

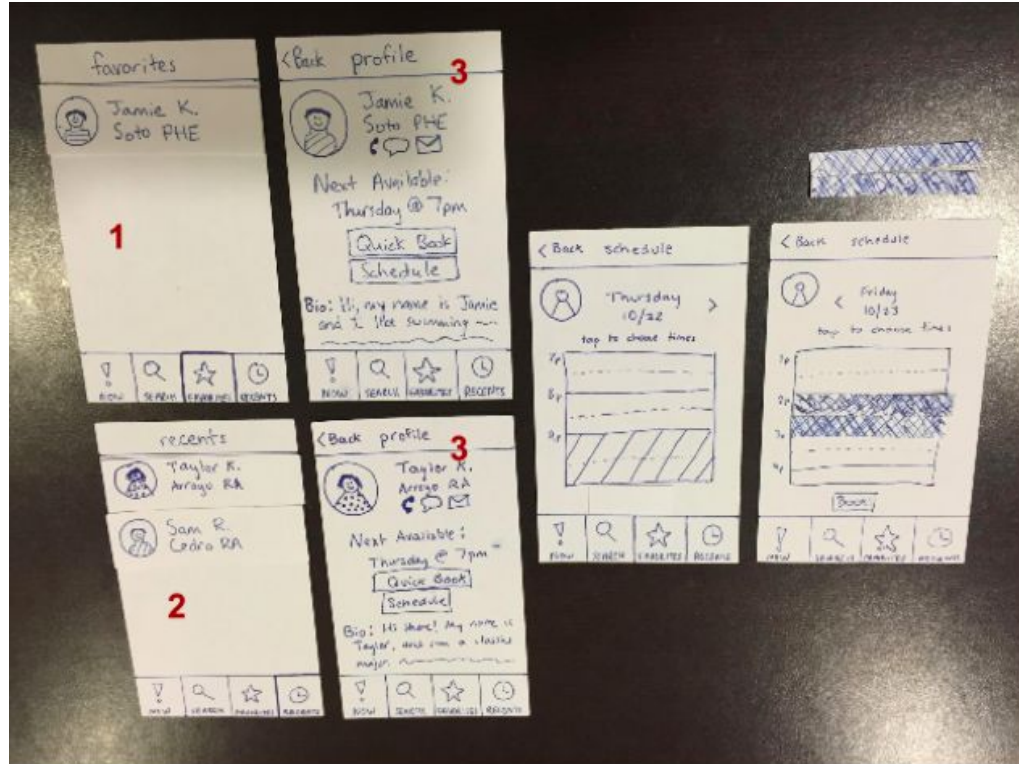

Task 1: "Find Someone Now"

Task 2: "Find Someone Specific"

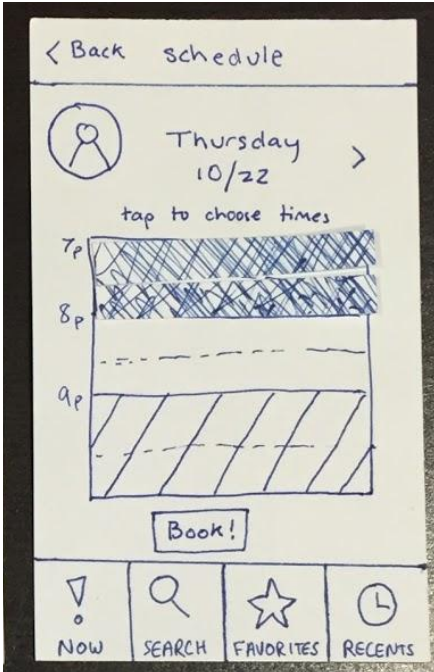

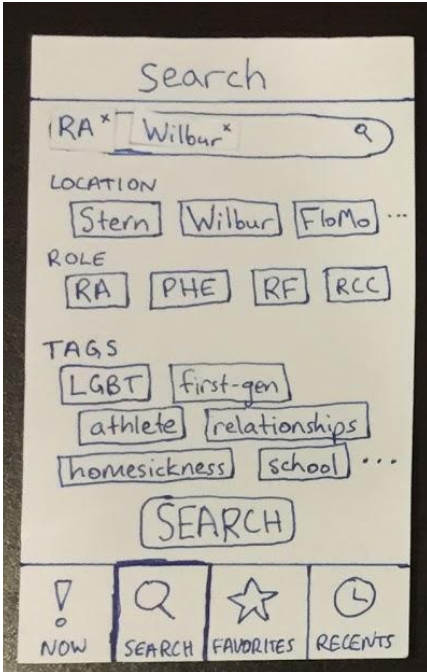

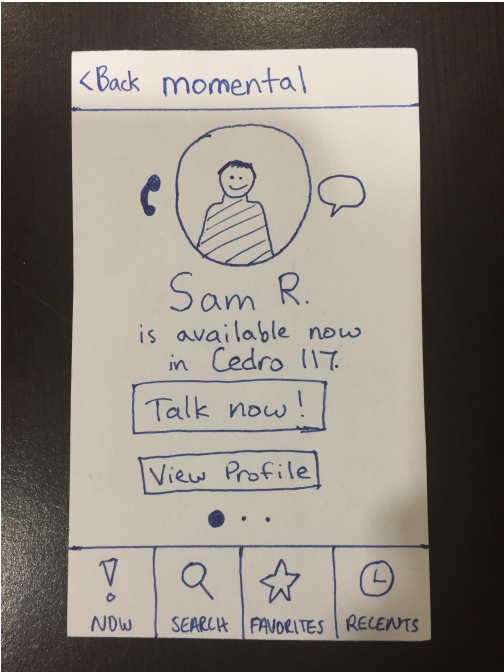

Task 3: "Follow Up with Someone"

Experimental Method

- Tested in users' homes
- “Find Someone Now”, “Find Someone Specific” (homesickness), “Find Someone Specific” (Taylor), “Follow Up with Someone”

Experimental Results

Suggested UI Changes

- Better signaling on search bars and meaning of “GO!” buttons
- Either merge or differentiate match screen and profile screen
- Reduce emphasis on booking

Summary

Thank you!
