General Notes

Task 1: Watch a Video
- Watch user submitted videos by tapping on the play button on a video.
- Videos appear from the scrollable Feed and the personal Inbox.
- Share your thoughts and reactions by posting a public comment to a video.

Task 2: Record yourself doing a challenge
- From the Feed, tap the Record button to record yourself doing a challenge
- The Record screen appears and a random challenge appears. You can press the refresh button to generate another random challenge.
- Press the red, circular record button to begin recording your challenge.
- Your recorded video will autoplay. Press the back button to re-record your video.
- When you are finished recording, press the record button again.
- You can either Save to Camera Roll, Post to Public Feed, or Share with Friends your new recorded challenge video.

Task 3: Create and share challenge with friends
- You can send a challenge to your friends by pressing the Send Challenge button on the Feed
- On the Send a Challenge Screen, you can type a customized challenge or select three Featured challenges.
- After selection, you can send your challenges to friends.
- You can also receive challenges from your friends in your Inbox.
- In the Inbox, you can see your Challenge Journeys with your friends and view comments and the videos that you have previously sent to each other.

Current Limitations
- No timer or delay setting implemented for recording videos.
- Friends, Feed Videos, and Challenges are hard coded.
- You can only ignore challenge requests, not reject/delete them.
- Challenges are randomly generated for you to pick(wizard of oz)
- You can't actually send challenges, record videos or watch videos yet.
