Understanding mental health through personal stories

http://hci.stanford.edu/courses/cs147/2017/a u/projects/equalizingsociety/igetyou

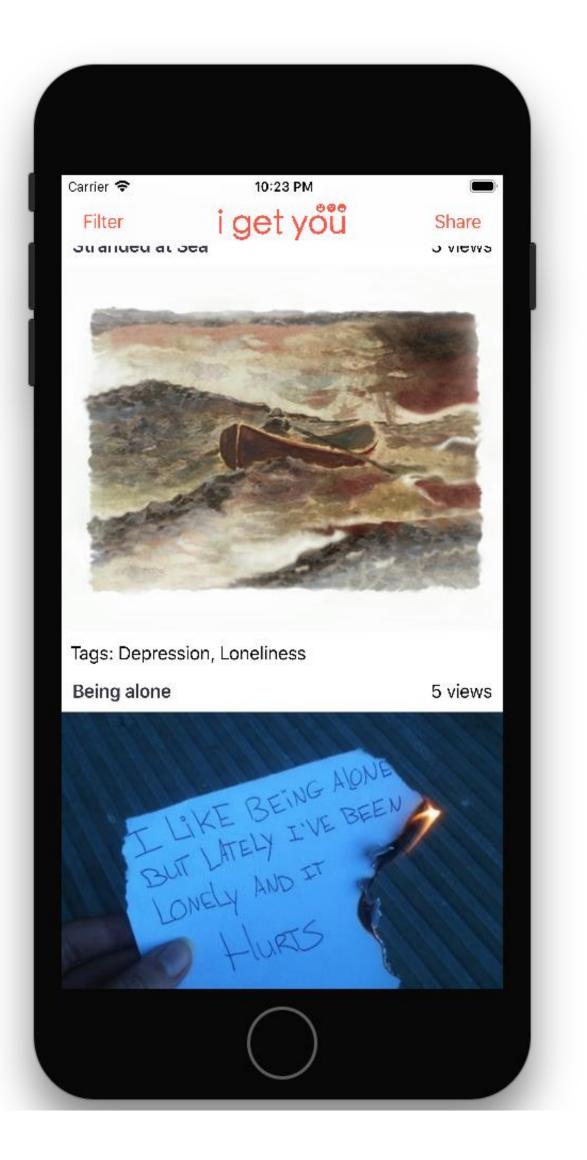

> Marisa Kwiatkowski Thorn Hall Erica Fearon Colin Gaffney

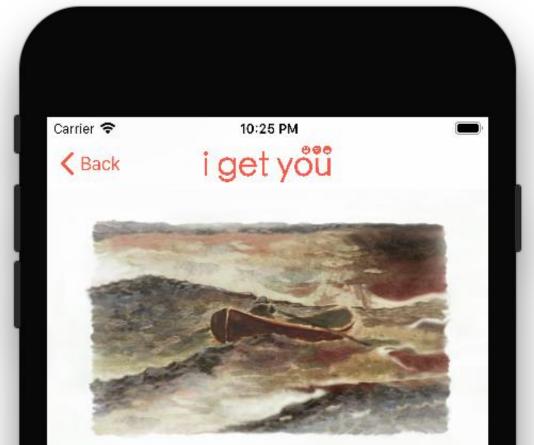

## Problem

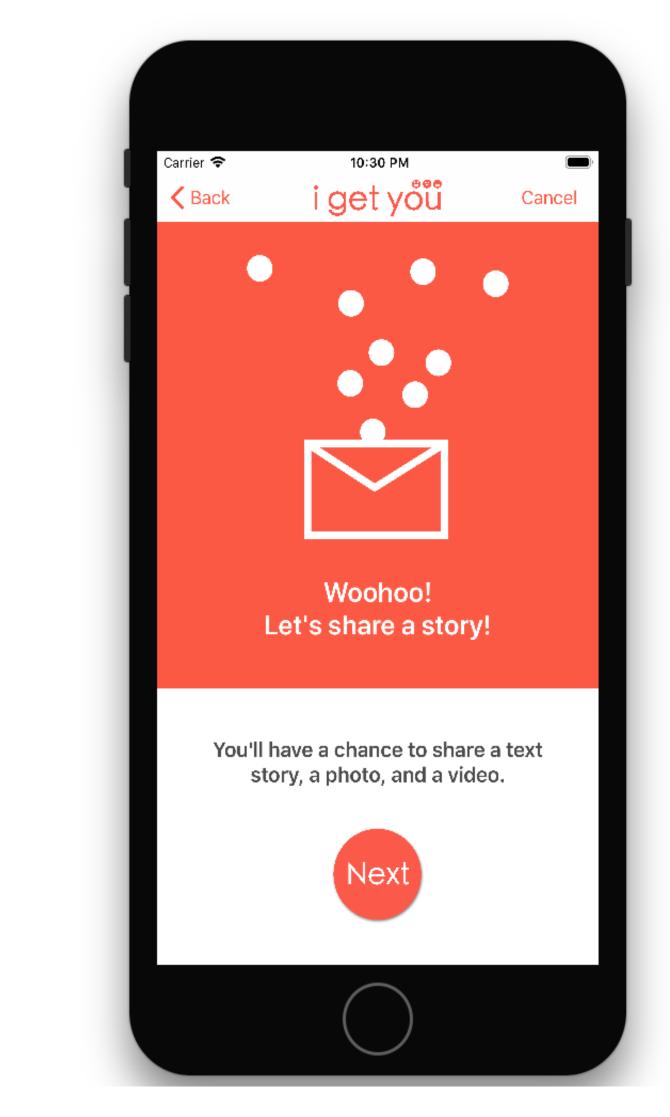

People often struggle to empathize with those affected by mental illness

## Solution

A platform where people with mental illness can share stories and others can view and learn from them

React to stories and give feedback Share your own experiences

## **Design Process**

How might we... educate close community about how to support others up minital illness?
