FLUTTER

declutter meaningfully

When **giving away a sentimental item**, you can't help feeling guilty: Will you need it two weeks down the line? What about all the memories?
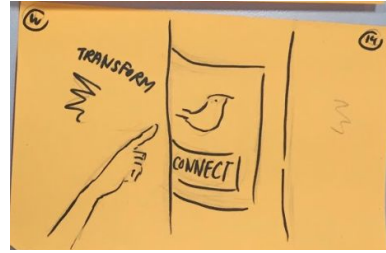

Flutter makes parting with objects feel like a celebration, giving you the opportunity to crowdsource new use cases and make donations social.

SIMPLE   Find an object you need

MEDIUM   Find a way to pass on/take care of a sentimental object

COMPLEX   Create and share new experiences where the acquired object is valued.
