College Companion

Medium Fidelity Prototype

Kevin J., Raaisa M., and Celine W.

College Companion

Problem

The college application process is convoluted and stress-inducing. The application is unintuitive and information about how to apply is not consolidated in one place.

Solution

College Companion will help guide the student through the process. Through proactive guidance on the application itself and combining all relevant information in one user-friendly place, College Companion will help students conquer their applications! Conquer your college apps with College Companion!

Tasks

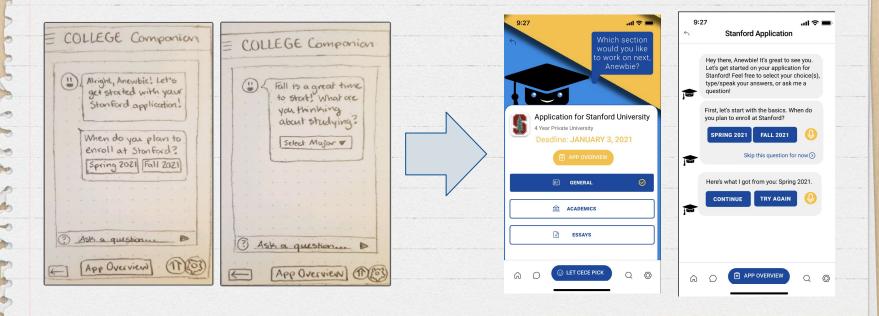

Easy Task: Find a college and add it to your list

Medium Task: Fill out an application Hard Task: Find schools recommended for you

Revised Interface Design

Major Change #1: Application

Created sections when filling out app

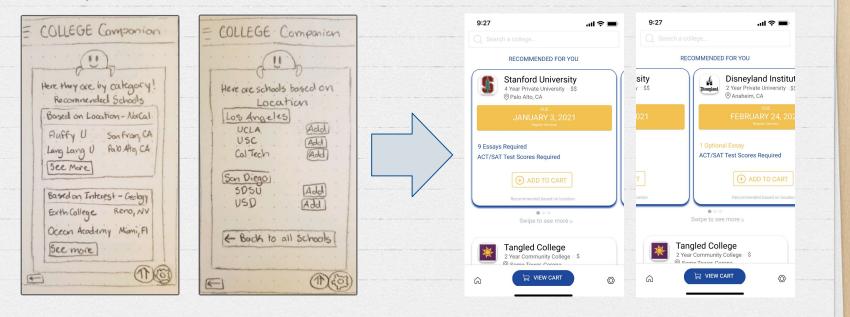

Major Change #2: Recommendations

Changed recommendations to search bar

-

-

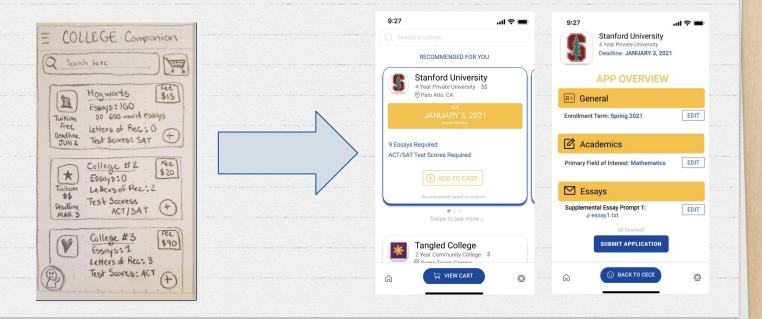

Major Change #3: School Information Display

Change school information displayed

Prototype Overview

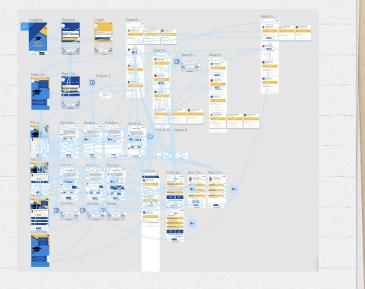

Design and Prototyping Tools

- X Adobe Illustrator for design elements and icons
 - X Freedom for a lot of creativity
 - X Easy to use
- X Figma for prototyping
 - X Smooth storyboard outline
 - × Finicky and crashed a few times

Limitations and Tradeoffs

- Had to leave out a lot of transitions due to Figma's complexity
- X Could not incorporate features such as voice control
- X Could not include all colleges possible
- X Cannot save actual user information (for now)

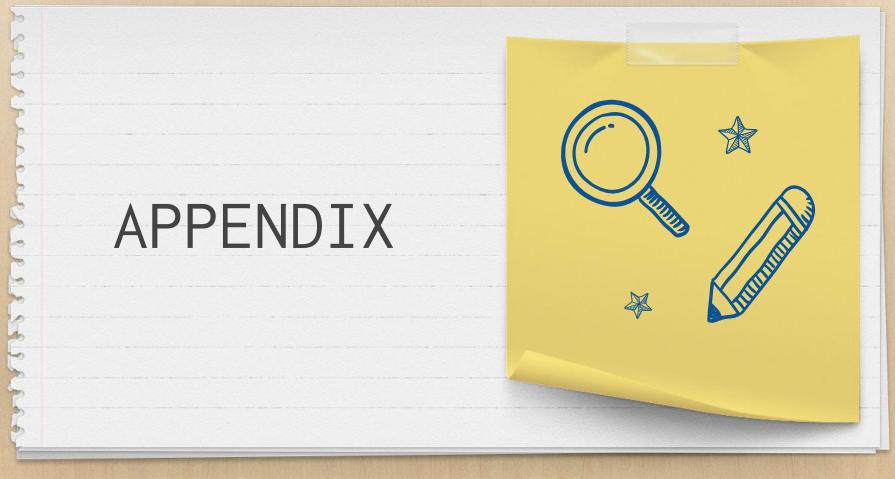

Wizard of Oz Techniques + Hard

Coded Features

- X User information
- X Application Content
- X Dialogue with CeCe
