

Pitch Script

<hello> x 4. If you speak **more** than 1 language, this is what your texts look like.

Your texts are **eternal**, but your language **isn't**, so how do you retain your language over the years?

That's why we built CirLing -
to discover how your language use changes
and to bring back your texts in that language you don't want to forget.

Stay multilingual, stay in touch.

Thank you
