Trove
Treasure your memories

Many art lovers struggle to revisit the emotions they felt during previous art viewings and are unable to form strong connections with art pieces they enjoy.
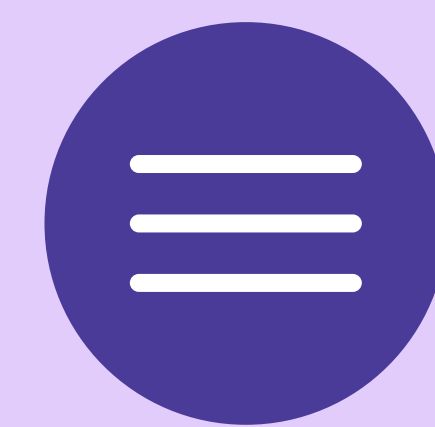

Our solution? Say *Ahoy!* to **Trove**, a modern day treasure map you can use to interact with AR art pieces hidden around the world. With this platform, Trove aims to revitalize how we remember and value art.
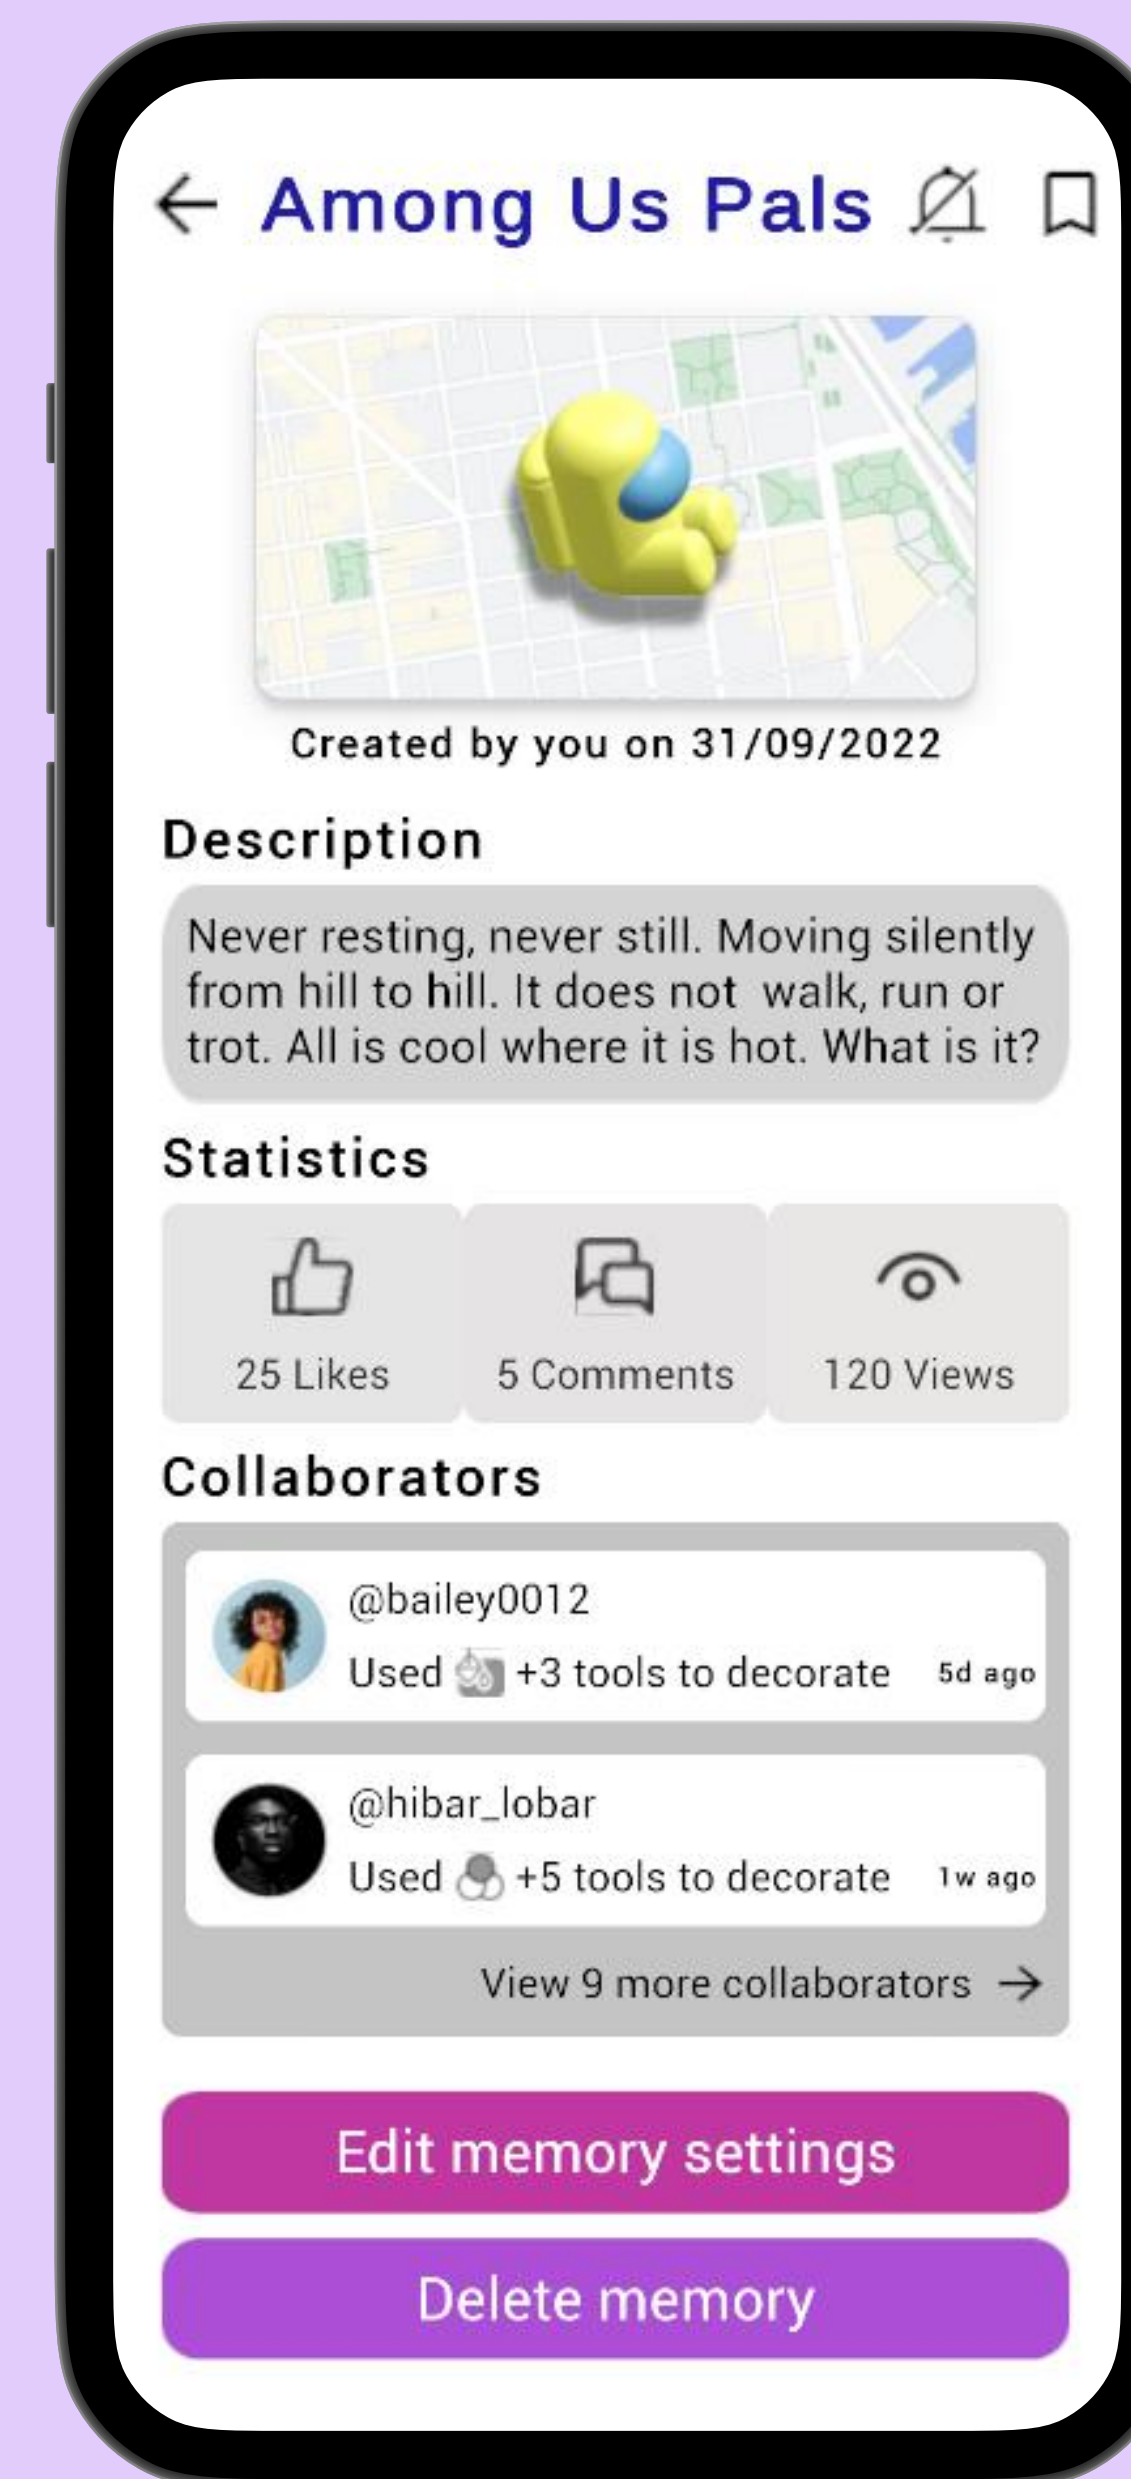

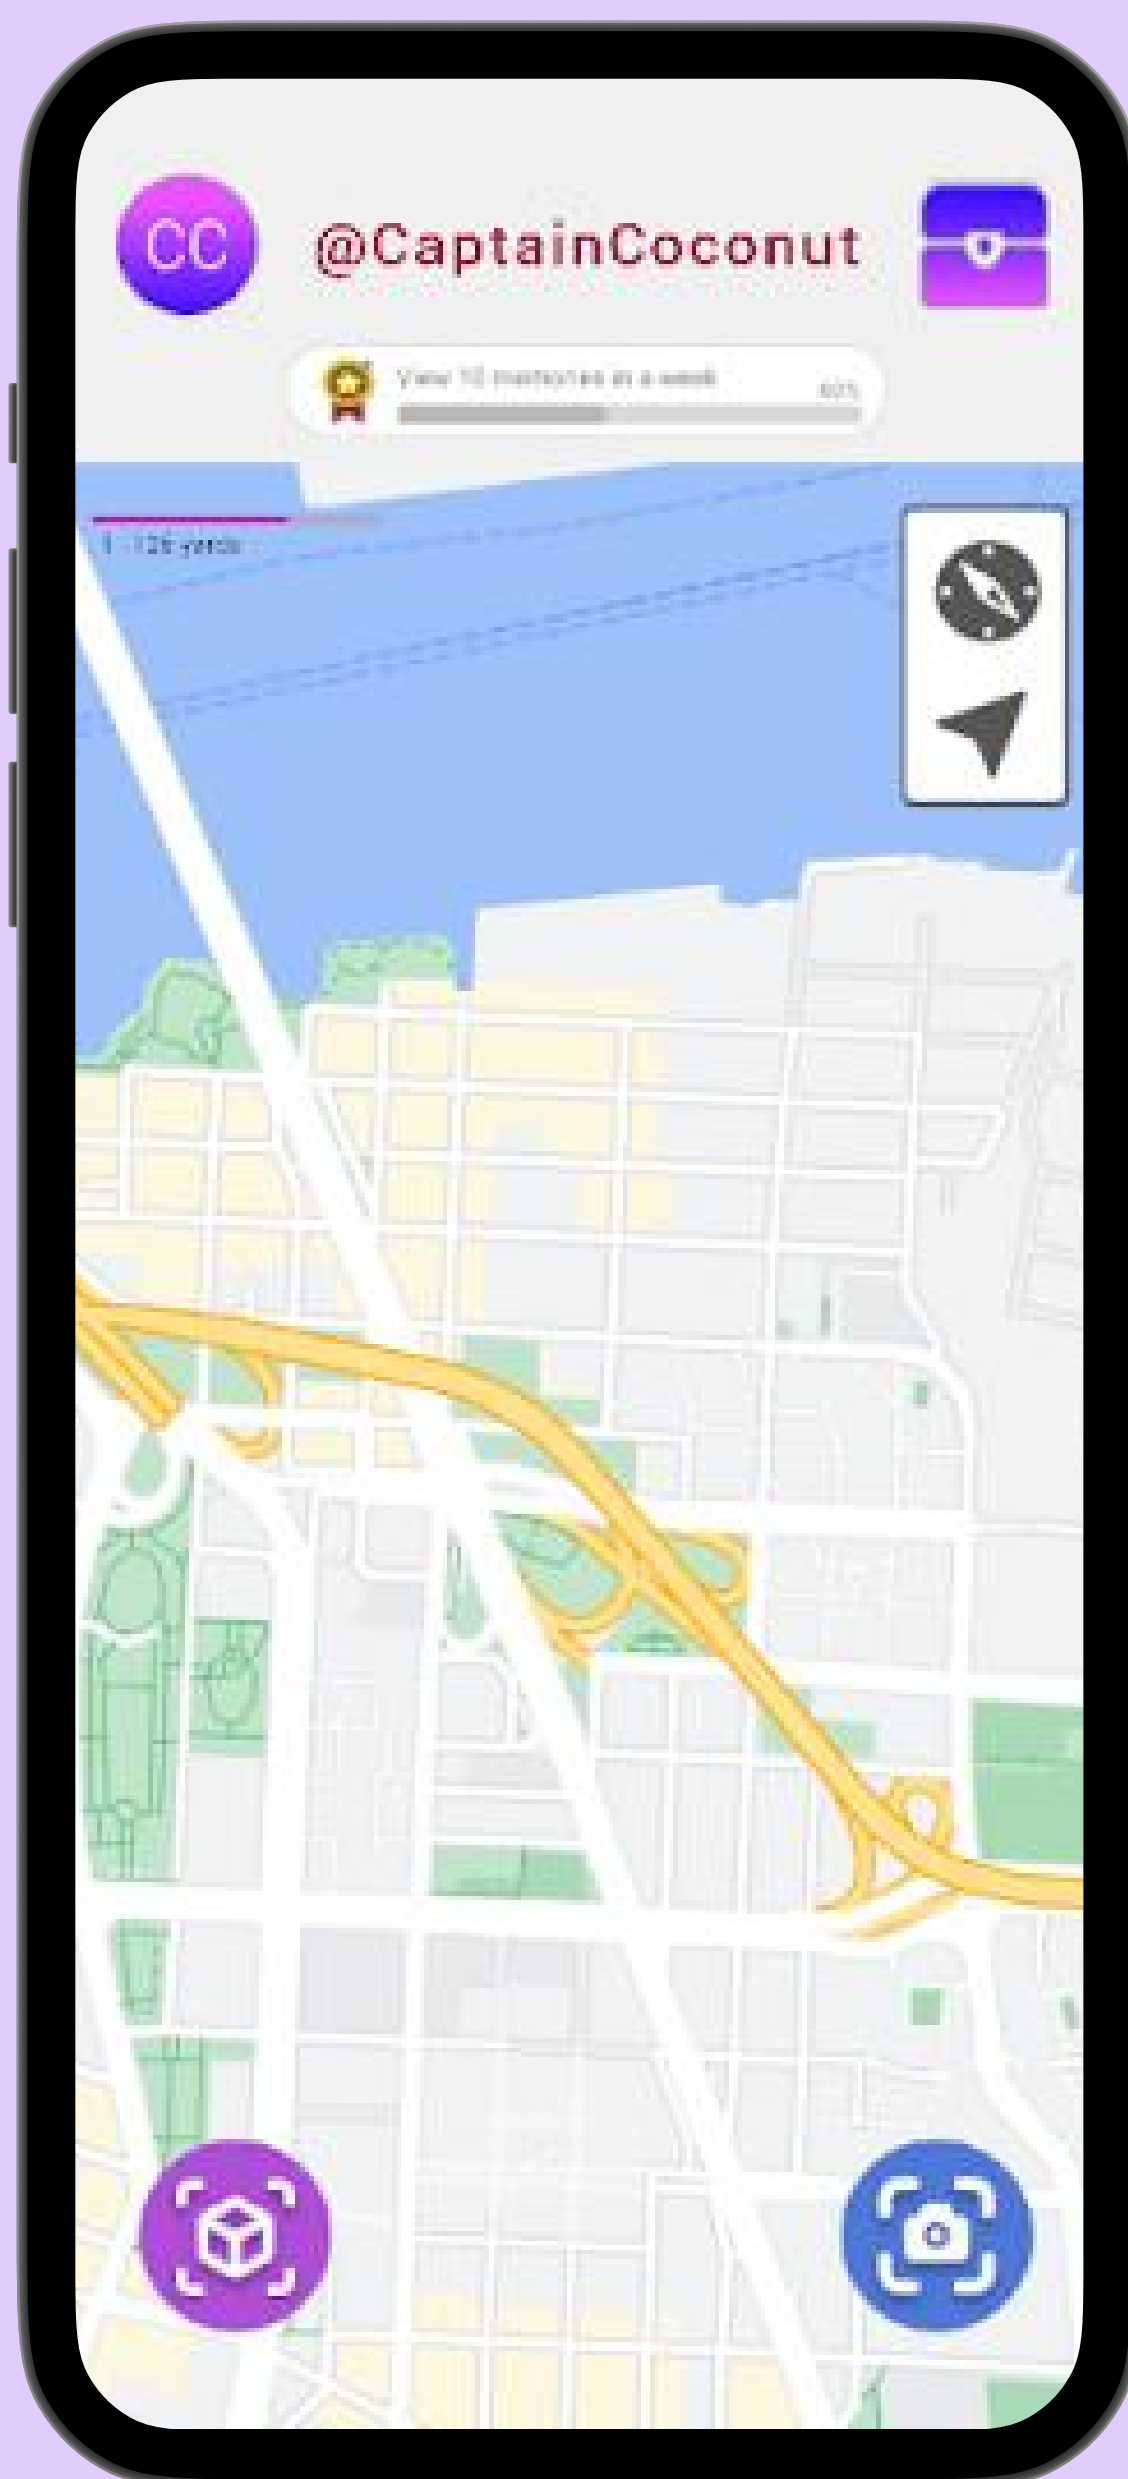

Discover new AR art in the world around you

Create AR art by scanning in real world objects
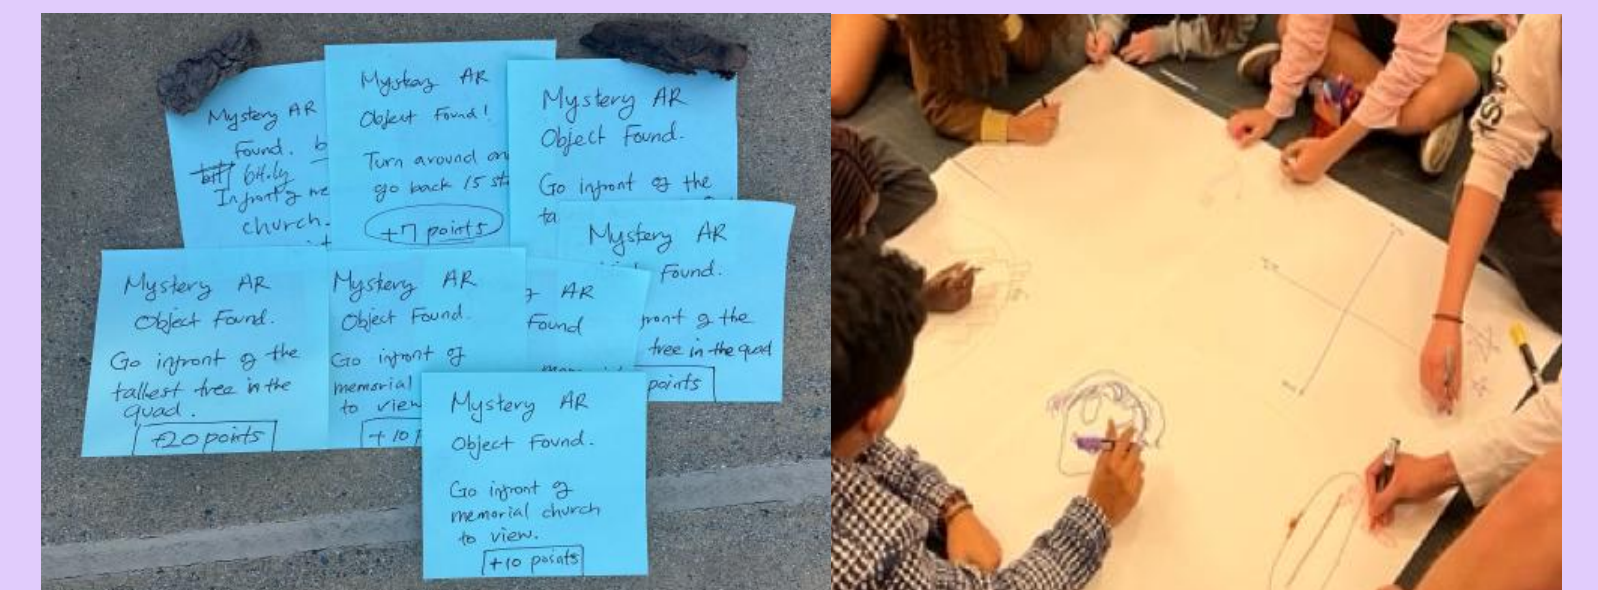

Organize viewed AR art in your Trove

Description
Never resting, never still. Moving silently from hill to hill. It does not walk, run or trot. All is cool where it is hot. What is it?
