Hall of Fame or Shame?

Wiimote
By Nintendo
Great at opening up gaming to a wider audience but…

the main thing that differentiated the product (movement in gaming) resulted in it being thrown at windows/TVs

- slippery plastic hard to hold. Later designs added rubber case & strap
- lack of a joystick was initial problem resulting in a second controller

Would you like to engrave?: Yes + Extra Links
I will definitely order from Paul again. And I highly recommend ordering from Paul! He was quick to respond when I had a moment of panic that I wrote the message I wanted engrave wrong, which I didn’t, and he understood exactly what I meant and needed. M...

Helpful?

Would you like to engrave?: Yes Please!
This watch is beautiful! It looks even better in person! This is the first thing I’ve ordered through Etsy, and it couldn’t have been a better outcome!

Helpful?
• What site am I at?
  – Logo in upper-left
  – Colors, layout, font
  – examples of SITE BRANDING (E1)
• Where am I in the site?
  – Last button clicked was “Add to cart!”
  – “in your cart” & “Proceed to Checkout” reinforce I’m on “the right page”
  – shopping cart icon changed
  – SHOPPING CART (F3)
• What am I going to buy?
  – Easy to remove & save for later
• How much will it cost?
  – Could be better as need to click for shipping costs – surprise!
• SHOPPING CART (F3)
What can I do (they want me to do)?
- “Proceed to Checkout”
  HIGH VISIBILITY ACTION BUTTON (K5)
  - visually distinct, looks clickable
  - large
• What if I don’t have a User ID?
• SIGN-IN/NEW ACCOUNT (H2)
• What if I’m using a new device?
  - 2-factor auth
• SIGN-IN/NEW ACCOUNT (H2)
- What if I forgot my password?
- SIGN-IN/NEW ACCOUNT (H2)

• Last step of process  
  – Step 3, “Review/Place Order”  
  – “Place your order” button  
• HIGH-VISIBILITY ACTION BUTTON (K5)
• No nasty surprises
  – Can see order
  – Total price is same as shopping cart
  – ORDER SUMMARY (F7)
• Easy to change shipping & billing
• All of these things are part of the design pattern – QUICK-FLOW CHECKOUT (F1)
Design = Solutions

• Design is about finding solutions
• Unfortunately, designers often reinvent
  • Hard to know *how* things were done before
  • *Why* things were done a certain way
  • *How* to reuse solutions
Design Patterns

Communicate common design problems & solutions
- First used in architecture [Alexander]
  - Ex. How to create a beer hall where people socialize?
Somewhere in the community at least one big place where a few hundred people can gather, with beer and wine, music, and perhaps a half-dozen activities, so that people are continuously criss-crossing from one to another.
Using Design Patterns

• Not too general and not too specific
  – use a solution “a million times over, without ever doing it the same way twice”

• Design patterns are a *shared* language
  – for “building and planning towns, neighborhoods, houses, gardens, & rooms.”
  – Ex. Beer hall is part of a center for public life…
  – Ex. Beer hall needs spaces for groups to be alone…

ALCOVES
A Web of Design Patterns

(8) Mosaic of Subcultures

(31) Promenade

(90) Beer Hall

(5) Building Complex

(179) Alcoves

(33) Night Life

(181) The Fire
Web Design Patterns

• Also used in UI design
• Communicate design problems & solutions
  – how to create navigation bars for finding relevant content…
  – how to create a shopping cart that supports check out…
  – how to make e-commerce sites where people return & buy…
NAVIGATION BAR (K2)

Problem: Customers need a structured, organized way of finding the most important parts of your Web site.
NAVIGATION BAR (K2)

Solution diagram
- captures essence on how to solve problem

FLOATING WINDOWS (H6)

![Image of Netflix interface showing recommendations]

**Gladiator: Extended Edition**

(2000)

Fans of Gladiator's original theatrical release will appreciate this extended version of the epic Ridley Scott film, packed with 17 extra minutes of action footage and gripping dialogue. Featuring a strong supporting cast and an Oscar-winning performance from actor Russell Crowe as the dauntless Roman general Maximus, this big-budget Best Picture winner became an instant classic -- and helped elevate its leading man to icon status.

**Starring:** Russell Crowe, Joaquin Phoenix

**Director:** Ridley Scott

**Genre:** Action & Adventure

**MPAA:** R

Recommended based on 1 rating
FLOATING WINDOWS (H6)

In this sequel to "Vikings," a hundred years have passed and a new generation of legendary heroes arises to forge its own destiny — and make history.

Only on Netflix

Continue Watching for landay
FLOATING WINDOWS (H6)

The lives of an emerging superstar and a filmmaker intertwine in this intense, intimate docuseries charting Kanye West's career, filmed over two decades.

Solution Diagram
Patterns Support Creativity

• Patterns come from successful examples
  – sites that are so successful that lots of users are familiar with their paradigms (e.g., Google, Amazon, Yahoo, Facebook…)
  – interaction techniques/metaphors that work well across many sites (e.g., shopping carts)

• Not too general & not too specific
  – you need to specialize to your needs

• Patterns let you focus on the hard, unique problems to your design situation
  – every real design will have many of these
Patterns Offer the Best of Principles, Guidelines & Templates

- Patterns help get details right, without over-constraining the solution
  - unlike principles, patterns not too general, so can see how to apply to your situation
  - unlike guidelines, patterns discuss tradeoffs, show good examples & tie to other patterns
  - unlike style guides, patterns not too specific, so can still be specialized
  - unlike page templates, patterns illustrate flows among different pages

- Patterns can serve as documentation for teams
- Often used along with or as part of design systems

Patterns in Exploration Phase

- Exploration-level patterns to design overall structure
  - different choices will give radically different designs
- For example, how to organize information
  - HIERARCHICAL ORGANIZATION (B3)
  - TASK-BASED ORGANIZATION (B4)
  - ALPHABETICAL ORGANIZATION (B5)
  - ...
Patterns in Exploration Phase

TASK-BASED ORGANIZATION (B4): Link the completion of one group of tasks to the beginning of the next related task(s)
Design Exploration Example

• John given the task of designing a new subsite for showing maps to businesses
  - listings found by typing in address
  - key feature: show nearby businesses

• John comes up with two design sketches
  - Design #1 uses ALPHABETICAL ORGANIZATION (B5) for list of all nearby businesses
  - Design #2 uses TASK-BASED ORGANIZATION (B4) for list of related nearby businesses
Design #1
ALPHABETICAL ORGANIZATION (B5)
Design #2

TASK-BASED ORGANIZATION (B4)
Evaluating Which Design to Choose

- **Low-fidelity Usability Test**
  - sketches the rest of the key screens on paper
  - brings in 5 participants to his office
  - asks each to carry out 3 tasks while colleague Sam “plays computer”
  - John observes how they perform

- **Tasks**
  - look up 1645 Solano Ave., Berkeley CA
  - look up 1700 California Ave, San Francisco CA & find Tadich Grill
  - look up 2106 N 55th St, Seattle WA & find a Sushi restaurant nearby
Evaluating Which Design to Choose

- Results with Design #1 (Alphabetical)
  - Task 1: look up 1645 Solano Ave
    - no difficulties encountered – warm-up task!
  - Task 2: look up 1700 California & find Tadich Grill
    - several users didn’t notice that the list of nearby businesses was scrollable (due to paper affordances?)
    - those that scrolled took awhile to find in list of over 500
  - Task 3: look up 2106 55th St & find nearby Sushi restaurant
    - 3 users only picked restaurants that had “restaurant” in the name & thus couldn’t find “Kisaku”
Evaluating Which Design to Choose

- Results with Design #2 (Task-based)
  - Task 1: look up 1645 Solano Ave
    • no difficulties encountered – warm-up task!
  
  - Task 2: look up 1700 California & find Tadich Grill
    • 1 user took awhile to figure out that Tadich Grill was a restaurant & to click on the “Restaurants” link
    • all others found it in 2 clicks (Restaurants->Tadich Grill)
  
  - Task 3: look up 2106 55th St & find nearby Sushi restaurant
    • 3 found “Kisaku” in 2 clicks
    • 2 others asked for a listing of Japanese restaurants
Evaluating Which Design to Choose

• General comments
  – 2 users said they often want to email/SMS maps to friends who they will be meeting (task-based)
  – 3 users wanted driving directions (task-based)

→ TASK-BASED ORGANIZATION (B4) worked better, but still had some minor problems
Design #2 – Revision 1
Adding More Related Tasks
Design #2 – Revision 2
Adding HIERARCHICAL ORGANIZATION (B3) & LOCATION BREADCRUMBS (K6)
Design #2 – Revision 3 Hi-Fi Prototype
Adding SEARCH ACTION MODULE (J1)

Dark Patterns

- Trick questions
  - meaning of checkboxes alternates so 1\textsuperscript{st} is “opt out” but 2\textsuperscript{nd} is “opt in”
- Many other types of dark patterns
  - confirmshaming
  - bait & switch
  - hidden costs
  - friend spam…
- https://www.darkpatterns.org/
- Take Comm 130D/230D in Fall quarter for more!
Exit Ticket

Summary

- Lots of issues involved in designing compelling, usable interfaces (web or mobile)
- Design patterns are one way of capturing good design knowledge
  - generative (help you create new designs)
  - consider trade-offs
  - concrete examples of successful uses
  - a networked language that works together
