Spark

Streamlining Student Growth Tracking For Teachers

Problem

- Under-resourced teachers struggle to keep track of their students.
- Parents want more insight into how their child is doing in school.

Solution

- Spark helps teachers easily track their students' growth, while providing parents real-time updates on their child.
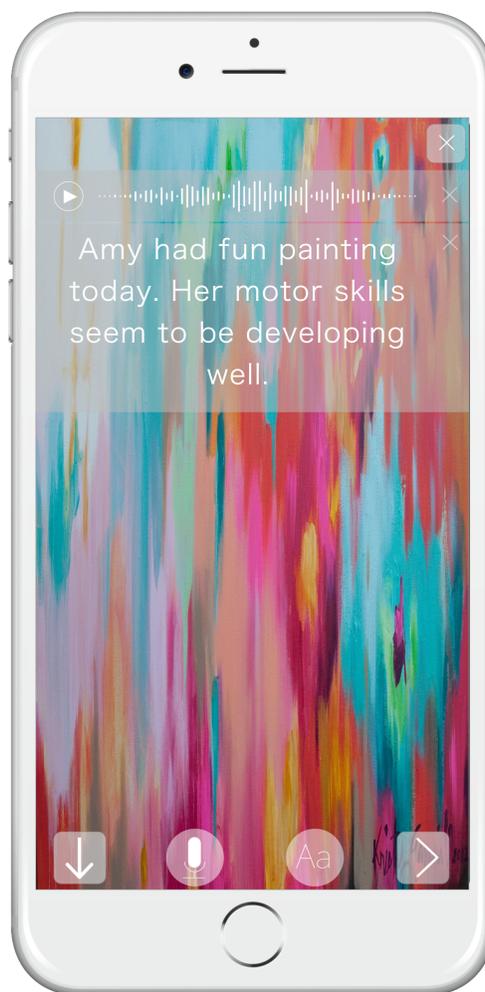

Key Features

View & Sort Moments

Sort moments by category to easily see students' development

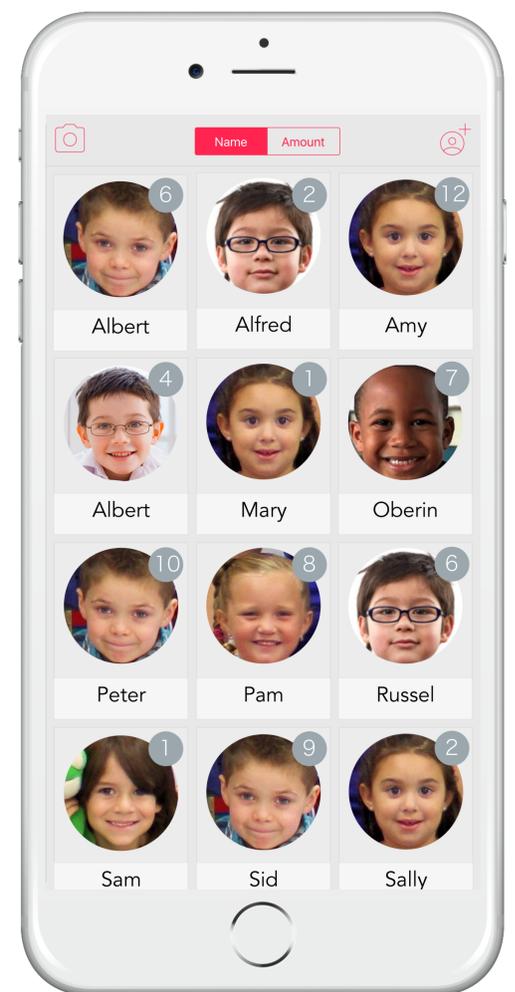

### Rapid Moment Capture

Quickly capture moments of any media type

Share Moments
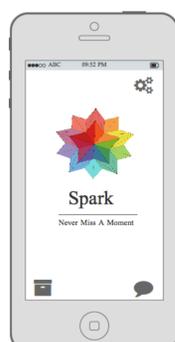

Easily send moments via text or email in just a few taps.
