Amanda Lim

Sara Valderrama

James Carroll

Reignite faded friendships.

Close relationships can easily grow distant.

Choose who to keep up with.

Get reminders to stay in touch.

Save memories of good times.

Heuristic Evaluation Results & Design Revisions

High Level Heuristic Evaluation Results

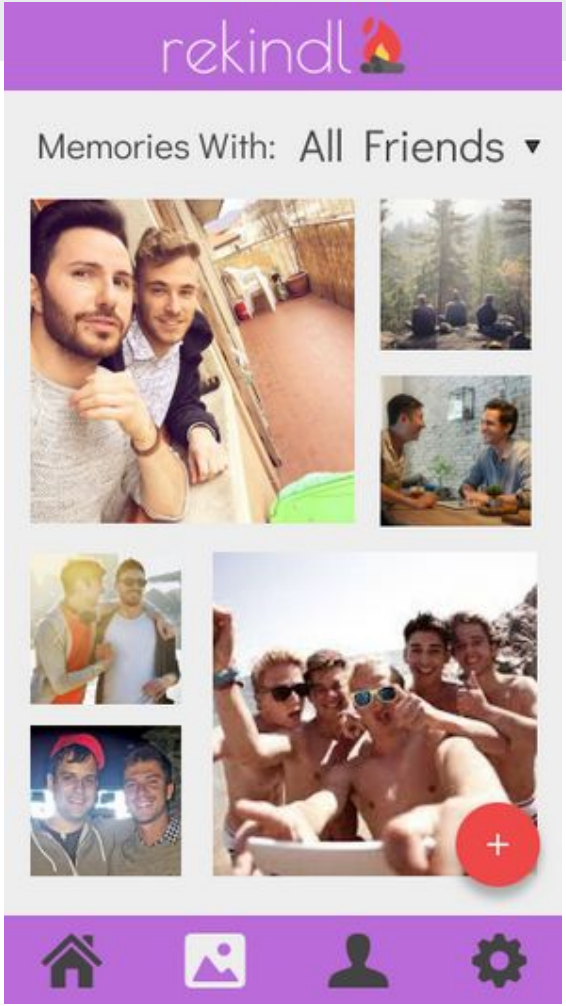

Issues with:

- Memories Page
- Home Page
- Calendar Page

Memory issues

Problem:

No way to delete memory once added

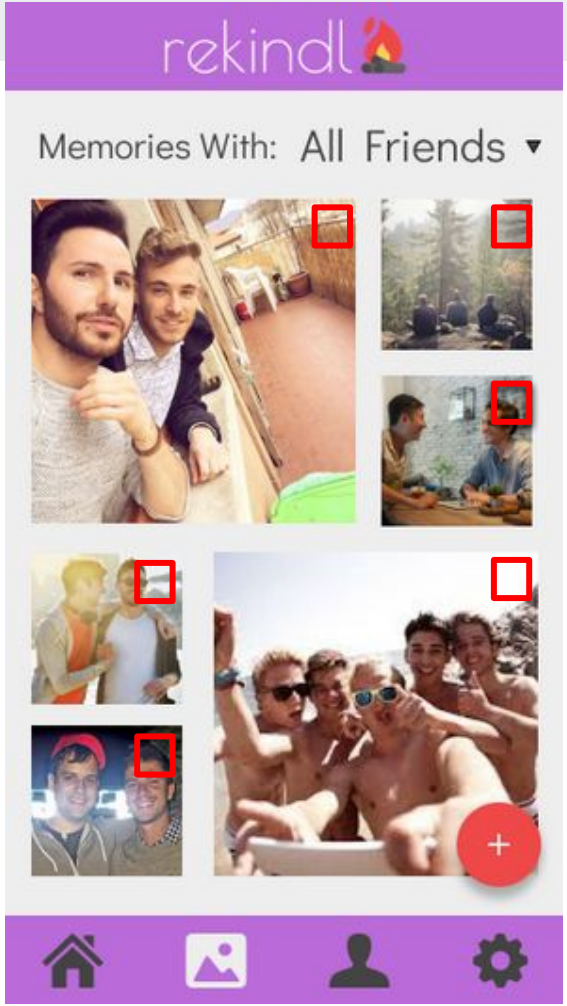

Memory issues

Problem:

No way to delete memory once added

Solution:

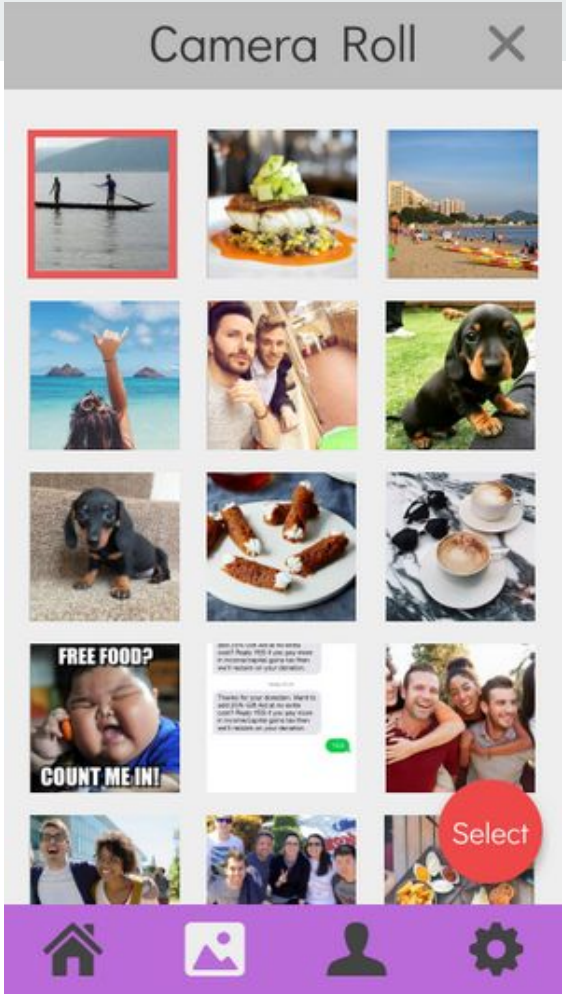

Add ‘X’ in top right corner to delete memories

Memory issues

Problem:

Unable to add multiple memories at a time

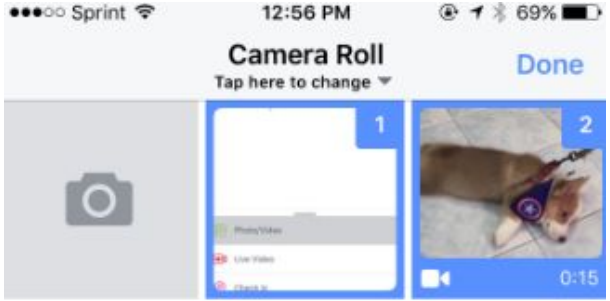

Memory issues

Problem:

Unable to add multiple memories at a time

Solution:

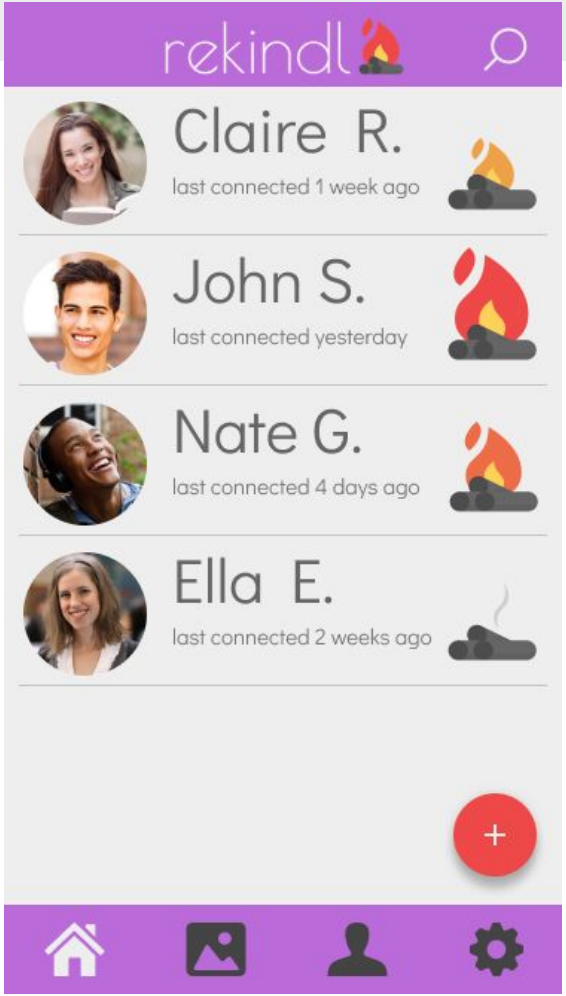

Have it be obvious on the selection page that multiple photos can be chosen by adding numbers to the top right corner

Home Page issues

Problem:

No way to delete a friend after adding

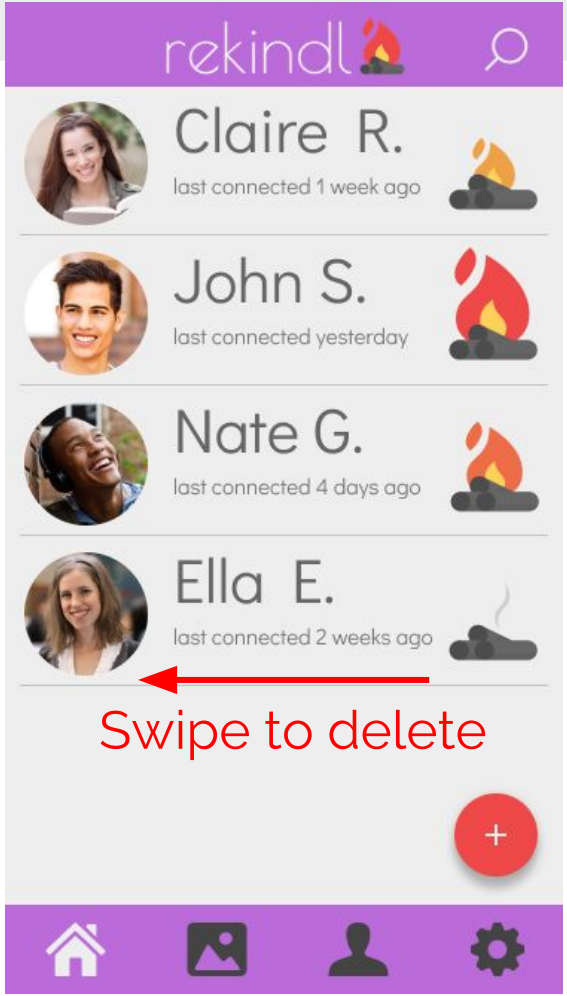

Home Page issues

Problem:

No way to delete a friend after adding

Solution:

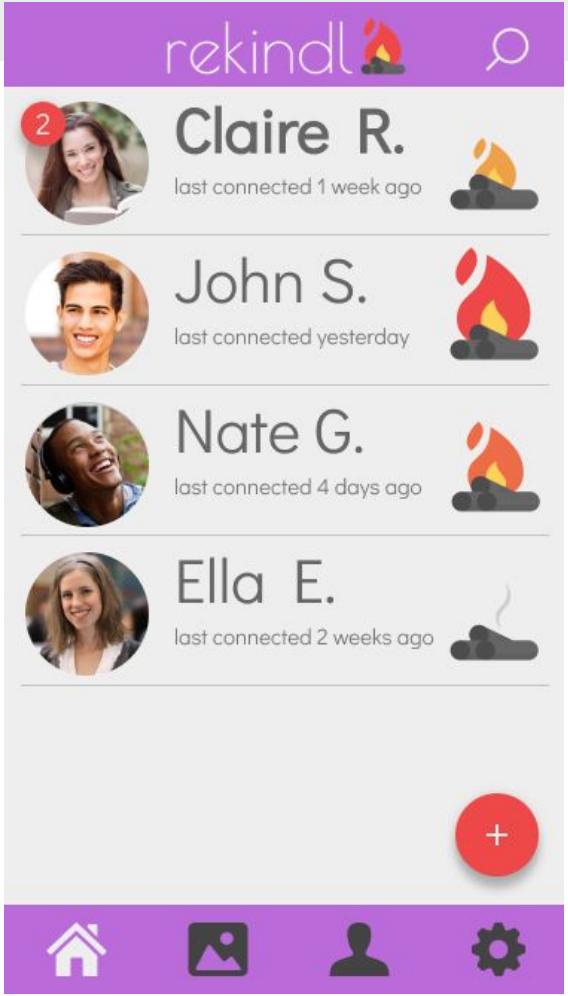

Swipe left to reveal delete option

Home Page issues

Problem:

Ordering of the friends on the homepage is unclear.

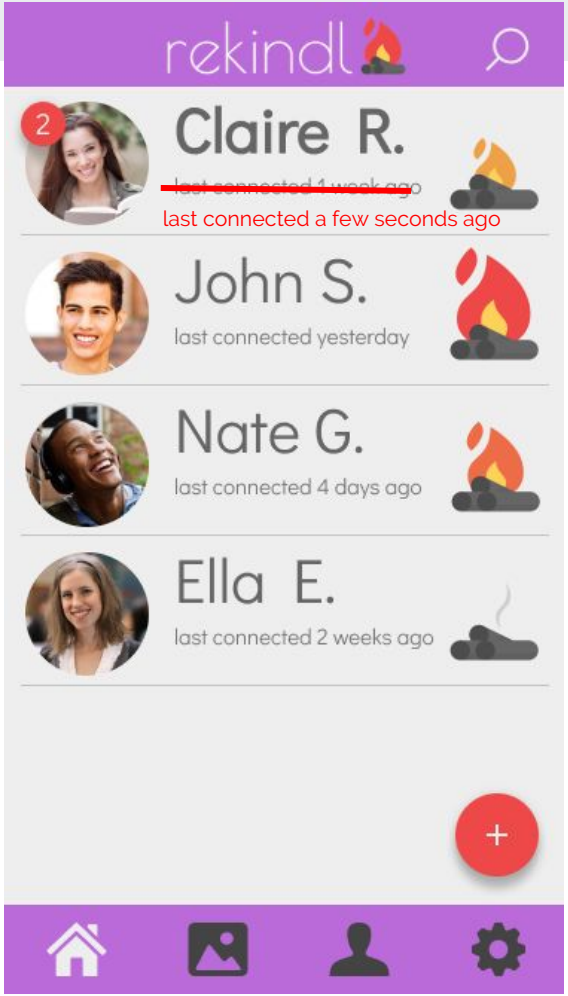

Home Page issues

Problem:

Ordering of the friends on the homepage is unclear.

Solution:

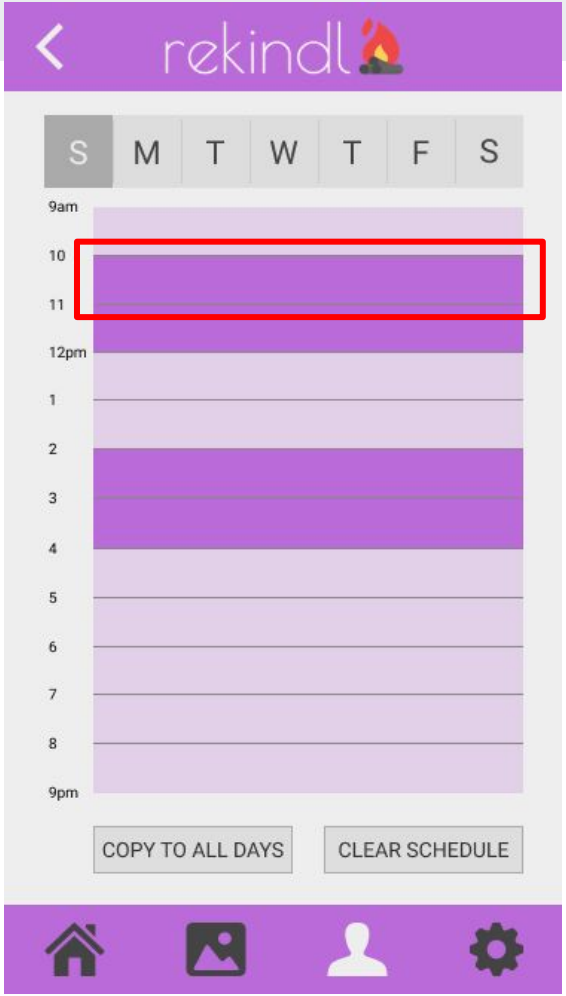

Order by most recent notification AND any notification updates the ‘last connected’ tag

Calendar issues

Problem:

Unclear if purple indicates free time or busy

Calendar issues

Problem:

Unclear if purple indicates free time or busy

Solution:

Add header “Mark all free times”

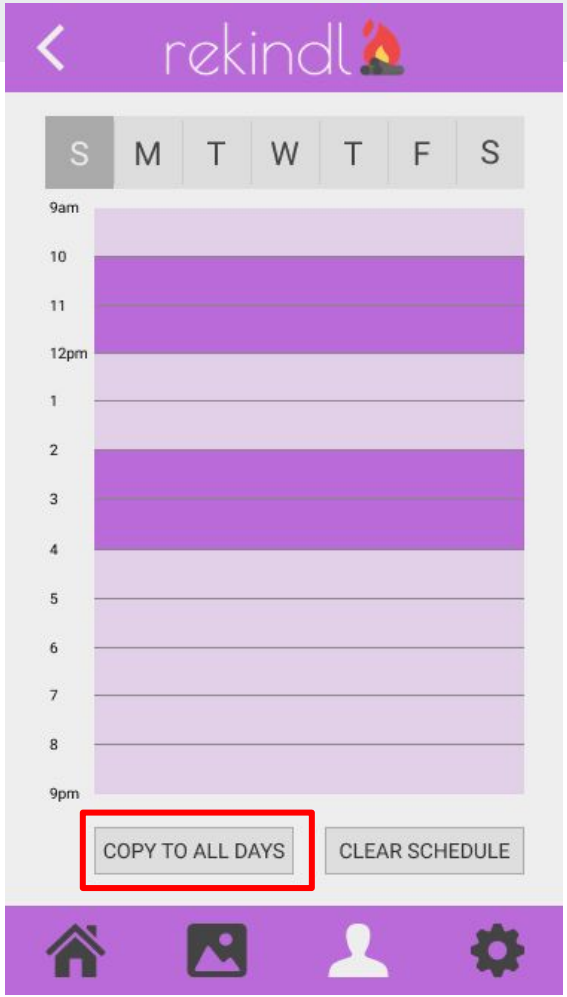

Calendar issues

Problem:

“Copy to all days” language is too technical

Solution:

Change to “Repeat”

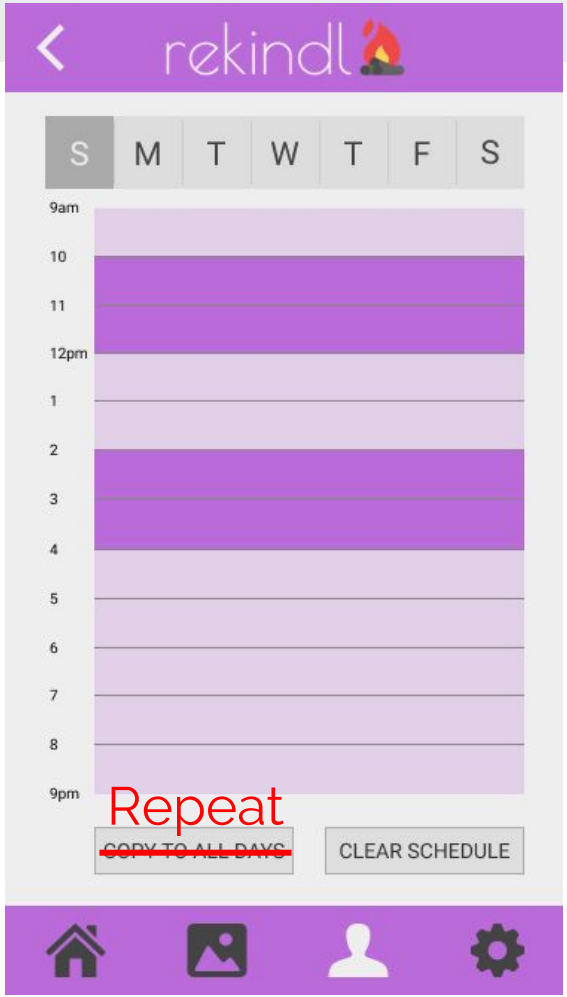

Calendar issues

Problem:

“Copy to all days” language is too technical

Solution:

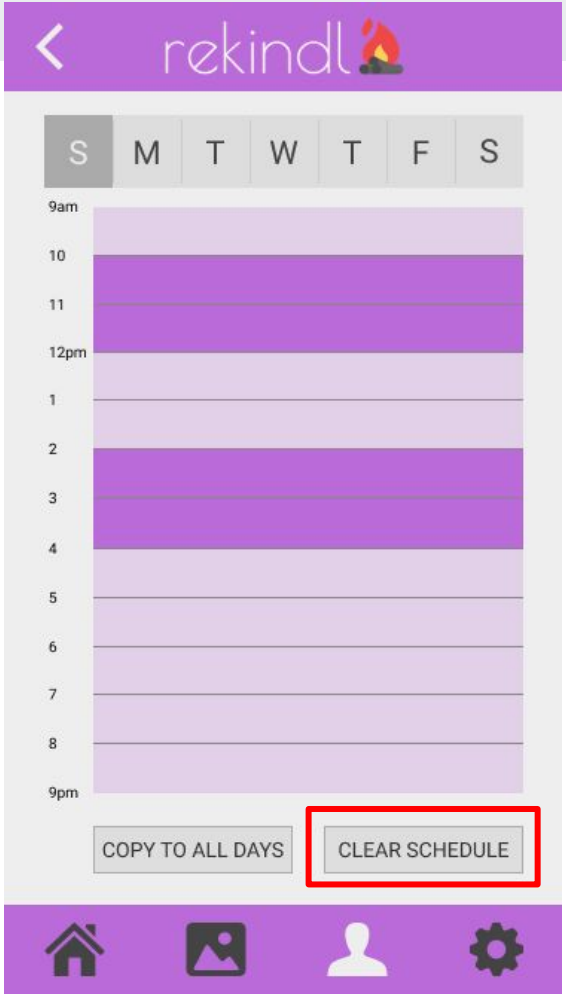

Change to “Repeat”

Calendar issues

Problem:

User must clear entire schedule if they select wrong time block

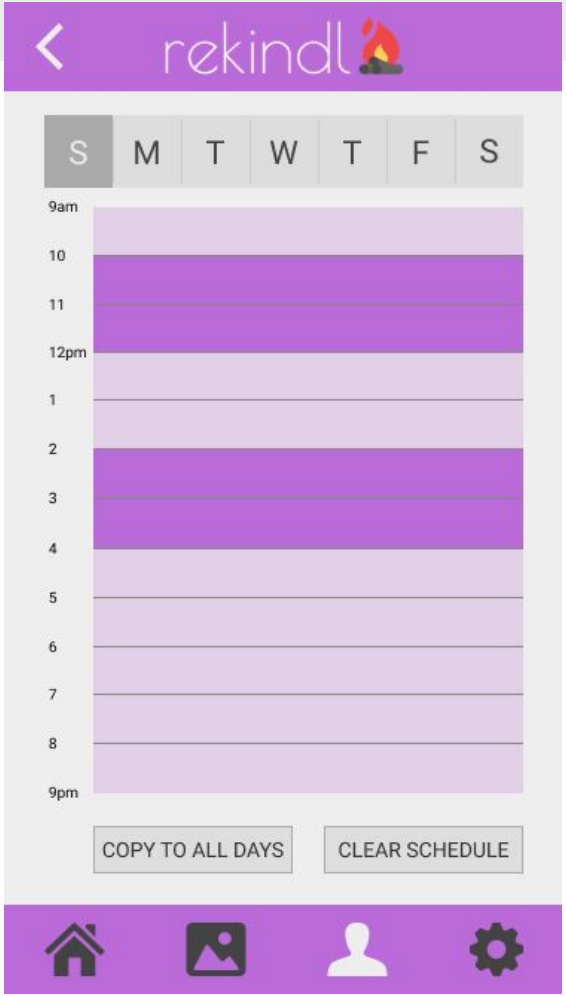

Calendar issues

Problem:

User must clear entire schedule if they select wrong time block

Explanation:

Prototype logic would have been too complicated to allow this
